It's time to **rethink** retirement.

In past years, the financial markets have experienced extreme swings.

This historic volatility, combined with the limited availability of traditional retirement income sources such as defined benefit pension plans, has placed a greater responsibility on Americans saving for their future. With this greater responsibility comes a need for financial solutions that can help provide a new level of protection for retirement savings.

Whether your long-term objective is to build a source of guaranteed lifetime income, save for a specific retirement goal, or leave a legacy for your loved ones, Allianz Life Insurance Company of North America (Allianz) can help by offering annuities with benefits designed to meet your retirement needs.

With Allianz, you can insure a portion of your retirement assets and **look beyond uncertainty as you prepare for your future.**

Many animals, like people, have a language all their own. The article [illegible] how horses communicate. Read the article then answer questions 16 through 22.

Talking with Horses

by Joy Paine

Photograph by Sharon Dean Urrutia

Horses talk to one another. They whinny [illegible] [illegible] snort, blow and cough. Horses also [illegible] [illegible] making a sound. They communicate [illegible] one another and with us through [illegible] and expressions. That's what we [illegible] body language.

People use body language too. We can [illegible] [illegible] no by nodding our heads or shaking [illegible] them. We shrug our shoulders. We wave hello or good bye. We wink when we have a secret. And we talk without [illegible] in many other ways as well.

[illegible] body language can be obvious or subtle. It can be a strong look [illegible] change in the expression of an eye.

Expressive Ears

When a horse has its ears straight forward and doesn't [illegible] them, it is [illegible] alert. We call this [illegible] the ears. A horse typically pricks its ears when it knows its breakfast is coming, when it hears a strange noise or when it sees another horse for the first time.

When a horse turns its ears to the side or halfway back, the horse is listening. It can listen with one or both ears. If the noise is on the right, the horse moves its right ear. If the sound is on the left, the horse moves the left ear. When a horse moves both ears back and forth, it is paying attention to the [illegible].

If a horse flattens [illegible] against the top of its head, it is showing anger. We say that the horse is pinning its ears.

Meaningful Looks

A horse that is relaxed and happy will have a soft eye, which looks round [illegible] and kind. A horse that [illegible] unhappy will glare with a "hard" eye which [illegible] [illegible], angry and mean.

A horse has a hard [illegible] when something is bothering it. Maybe the horse has a pain in the belly [illegible] leg. Or maybe the horse didn't sleep well! If a horse has both a hard eye and pinned ears, watch out!

When white shows [illegible] horse's eyes, it is [illegible] frightened or anxious. [illegible] when a horse [illegible] white-eyed, a handler talks to it in a low [illegible] voice. Sometimes [illegible] tone of voice can make a horse more comfortable and its eyes begin to soften.

MTA Reduced-Fare MetroCard

Conditions of Use and Other Important Information

for a Metropolitan Transportation Authority Reduced-Fare MetroCard (RFM) issued to people 65 years of age and older and people with disabilities. This program is managed by MTA New York City Transit.

Valid Use. RFM can be used to pay fares on all MTA New York City Transit subways, NYC Transit local buses, express buses only during non-rush hours, MTA Staten Island Railway, Nassau Inter-County Express Bus (NICE) MTA Bus, Roosevelt Island Tram, Westchester Bus-Line local buses and express Bee-Line BxM4C buses only during non-rush hours.

The RFM is valid identification for eligibility in the reduced-fare programs of the MTA Long Island Rail Road and MTA Metro-North Railroad anytime except weekday rush hours to New York City terminals. To receive the reduced fare, show the RFM to train personnel or station agents when purchasing your ticket.

Expiration Dates: Reduced-Fare MetroCards expire on the date printed on the back of the card. As long as you actively use your card, NYC Transit automatically sends you a new RFM before the expiration date.

The full value on an expired RFM may be transferred to a new RFM at a subway station booth. Any remaining value that is not transferred to a new RFM within two years after the expiration date on the original RFM will be surrendered by, and unavailable to, the card holder.

Trouble Using RFMs. An RFM that does not work or is damaged should be returned to MetroCard Customer Claims. Ask a station booth agent or bus operator for a prepaid envelope in which to return your card to us. In the envelope you'll find a form to fill out as you can describe your RFM problem.

If you prefer you may bring your damaged RFM to the MetroCard Customer Service Center at 3 Stone Street in downtown Manhattan, 8 AM to 5 PM Monday to Friday.

If you cannot get a prepaid mailer send the damaged card to our mailing address at:

MetroCard Customer Claims
130 Livingston Street
Brooklyn, New York 11201-9625

Be sure to include your name, address and phone number, your damaged RFM, an explanation of the problem and the address to which the new RFM should be sent.

The holder assumes the risk of loss until the card is received by either MetroCard Customer Claims or the MetroCard Service Center.

Change of Address: Notices and replacement cards will be sent to you at the address you provide. You must inform us promptly in writing, of any change of address.

Lost or Stolen RFMs. Immediately report a lost or stolen RFM by calling the MetroCard Customer Service Center 718 330 1234 6 AM to 10 PM or via our MetroCard eFIX system at www.mta.info. Any value or unlimited rides on your card will be transferred to your replacement RFM after the old RFM has been frozen and any balances verified.

Restrictions. An RFM may be used only by the person to whom it has been validly issued. Use of the RFM by any other person may result in forfeiture of the card and its remaining balances, plus civil and/or criminal penalties.

You must present your Reduced-Fare MetroCard to a police officer or transit personnel upon request.

There are no refunds of money remaining on RFMs. Money remaining on an expired card may only be transferred to a new card within two years of the expiration date. Money from a full-fare MetroCard cannot be transferred to a temporary or permanent RFM. No redemptions or exchanges will be given for an RFM that has been altered or tampered with or whose value cannot be verified.

The City of New York, the State of New York, the County of Westchester and the Metropolitan Transportation Authority and its subsidiaries and affiliates, including New York City Transit, are not liable for any special or consequential damages associated with or resulting from the failure, malfunction, or disabling of the RFM or the MetroCard system.

The MTA Reduced-Fare MetroCard and its use are subject to all tariff provisions, rules and regulations of the New York City Transit Authority and its affiliates, and Westchester County Bee-Line System.

For more information, call 718-330-1234 6 AM to 10 PM. If you are deaf or hard of hearing, use the free 711 relay or your preferred relay service provider to contact us. Have the card at hand so you can read the serial number and expiration date to the customer service agent who assists you.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s)

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the 'TO' field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with per-per or per-minute charges, please feel free to contact us at:

Web: http://www.interpage.net

Thank you for your interest!

Notes: 1 Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text images; only the above E-mail sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at http://www.interpage.net/trial-fax-trial.html, omitting any bill ng information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2 This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week; however, if you feel that someone is sending you faxes in a tendentious and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Your lawn had its late fall feeding today.

So bring on the winter.

You have done your lawn a very big favor by allowing us to fertilize it today. We applied a product containing just the right balance of nutrients to send the grass plants into winter in peak condition. And the healthier the lawn is during the late fall and winter the better all it will be next spring. Greener too.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Why do we use it?It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Where does it come from?Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

Where can I get some?There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

Where can I get some?There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. Top 10 things we learned today:

1. Trump was never under investigation.
2. Trump did not obstruct justice
3. Trump did not collude with Russia.
4. Russia did not alter the election outcome.
5. Comey leaked his own memo.
6. Loretta Lynch pressured Comey to cover for Hillary Clinton.
7. There was ample evidence to put Hillary in jail but Comey chose not to pursue it.
8. CNN and other fake news outlets have been lying / making things up this entire time.
9. The Democratic Party no longer has the ability to scream "RUSSIA" every time Trump tries to do something.
10. The Russia story is dead - any democrat who continue to push it will look foolish and insane to the American people.

TEST FAX

Checking out my new fax printer to see if it works
Because faxing is one of the machine s most useful perks
The old model was not compatible with Verizon Voice
So buying a new one seemed the best choice
Now I will find out if this problem has been solved
Or whether more dealings with Verizon will be involved
Hopefully this will shortly appear on Fax Toy
That will absolutely fill me with relief and joy

Keeping my fingers crossed!

certainly have been cases where refugee camps are places where exiled political movements will train and collect arms and plan attacks. But it's also the case that refugee camps don't provide opportunities for livelihood. The aid is very small compared to the actual needs."

There are rumors, according to the Turkish official — that the government is considering blanket citizenship for the Syrians, who are politically aligned with and likely to vote for the ruling party. (Syrians can apply for citizenship but aren't given any special treatment; fewer than 800 were granted it last year.) Kirisci, of the Brookings Institution, dismissed the idea. "No one is going to naturalize one million people."

When it comes to refugees in camps like Kilis, their relatively comfortable existence might make finding meaningful solutions for them less urgent. "Refugees are not useful if they're not suffering," Fabos says. Manuel Herz, a professor of architecture in Switzerland who studies refugee-camp structure, knows well the dangers of building nice camps. Since 1975, Morocco has been occupying a small North African territory called Western Sahara, forcing half its Sahrawi population to flee to camps in Algeria. There they remain. Unlike almost all other host countries, Algeria gave its refugees the right to govern themselves. "There, camp is not a place of suffering and hunger," Herz says. But the flip side is that "there's very little pressure for Morocco to withdraw because people are not dying anymore."

At the October meeting, the U.N.H.C.R. proposed a *fourth* durable solution: more support for host communities — building up Turkey and Jordan and Lebanon in ways that will survive the immediate conflict, creating jobs by improving infrastructure and lessening competition among locals and refugees for resources and employment. So far, this proposal has not been greeted with enthusiasm, even among countries that pump money into the camp system. Among the Turks, there is talk that the government is considering giving all Syrians the right to work, but it hasn't yet turned out to be anything but another rumor. In mid-2013, the prime minister and the foreign minister started demanding financial assistance from the international community to keep the camps running and asking other

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device temporarily disconnect device from PC.

Figure 5 Comparison of the curvature of $\sqrt{3}\cos(t) - \pi/2 \leq t \leq \pi/2$. Left. The sample points and their tangent planes. Right. The computed curvature at the sample points, and the true curvature of the function. The value of the integral approximation is 59.6265 degrees (converted from radians).

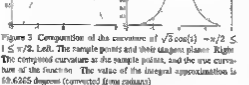

Figure 6. Same as above but with a denser sampling. The value of the integral approximation is 59.9600 degrees (converted from radians).

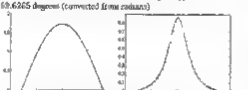

Figure 7. Same as above but with an even denser sampling. The value of the integral approximation is 59.9961 degrees (converted from radians).

2.2. Smoothness of a set of Points

In previous sections we showed that we can accurately measure the smoothness of a curve by evaluating (12) when the points and their normals are known. In practice the normals n_p are not known but will be computed by optimizing the unknown lines. However equation (10) shows that if the sampling rate is small enough then optimizing over n_p will yield the correct solution. This can be seen by noting that if we minimize (10) with respect to n_p then the dominant term $n_p^T d_i(t_i)(t_2 \quad t_1)$ (assuming sufficiently high sampling rate) vanishes if n_p is perpendicular to the tangent $a(t_i)$. Hence n_p will approach the true normal when the sampling distance approaches zero. Therefore we take

$$\min_{\{n_{p_1}, \ldots, n_{p_n}\}, \|n_{p_i}\|=1} \forall i \sum_{i=1}^{n} \sum_{j \in \mathcal{N}(i)} \frac{|p_j - p_i'|}{|p_i - p_j|} \qquad (17)$$

as our measure of smoothness of a set of points. Here $\mathcal{N}(i)$ represents some predefined neighborhood of the point i in equation (12) the neighborhood of i is $i + 1$ however for general points usually the connectivity of the points is not known and therefore the neighborhood will in practice consist of nearby located points (see section 2.3). Note that since we are assuming that the points p_i are fixed the above minimization problem is separable and each normal could be optimized by itself. However in general we will also assume that the points are noisy in which case p_i will also depend on its normal

Figure 8 shows the solutions obtained when optimizing (17) for two different sampling rates. Here we are using both forward and backward distances and therefore (17) should evaluate to approximately 120 degrees (when converted from radians). Even at this crude sampling rate of Figure 8, the sum in (17) is close to the true value.

Figure 8 Estimated tangent planes for exactly measured data points at two different sampling rates. Left. The energy of the solution is 2.0221 (which corresponds to 115.8578 degrees). Right. The energy of the solution is 2.0854 (which corresponds to 119.5419 degrees)

2.3 Energy

Next we consider the full problem of regularizing 2D-point clouds. We consider $\hat{p}_i$ to be noisy measurements of the true points p_i. We will estimate the p_i and the curve implicitly represented by its tangent lines $l_i = (n_{p_i} \; d_{p_i})$ by minimizing the pairwise energy

$$\min_{\mathbf{l}} \sum_{i} \sum_{j \in \mathcal{N}(i)} w_{ij} E_s(l_i, l_j) + \mu \sum_{i} E_d(l_i) \qquad (18)$$

Here the minimum is taken over the set of tangent lines.

The data term E_d measures the quality of the estimation of p_i. As mentioned before this term is application dependent and should be chosen depending on what type of noise we may expect. In the 2D case we will use

$$E_d(l_i) = (n_{p_i} \hat{p}_i + d_{p_i})^2 \qquad (19)$$

which is the squared distance between the measured 2D point and its orthogonal projection on the tangent line. It is straight forward to use other data terms that would prefer certain directions and positions. For example in the 3D-case a data term based on photoconsistency could be used. However in this work we are mainly interested in 3D point clouds and we do not assume that any other knowledge than the point measurements them selves are available

5 Things to Avoid Before Buying A Home

With low mortgage rates and a battered housing market, it's a ripe time to buy a home. Here are five credit sc
things you should avoid doing before buying a home.

A lender doesn't set a loan's interest rate based on only your credit score, but it's one of the easiest things you
your actions. Avoid these five things to help ensure you don't get a higher rate than you should.

1. Don't apply for any new credit.
When you apply for new lines of credit, the lenders will do a hard inquiry on your credit history. Hard inquiries
few points on your credit score. It might be appealing to take advantage of hot new credit card promotions but
in the long run.

2. Don't take on any new debt. New debt will increase your credit utilization, which will negatively impact yo
Lenders are very wary of borrowers with a large amount of consumer debt, so don't help them build a case for
rate by taking on debt and dinging your credit score.

3. Don't take advantage of any "same as cash" offers. Same as cash is code for a short term loan and n
know, are going to hurt your credit score. The same goes for 0% financing or 0% balance transfer offers. Any

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error report will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, **we will generate** a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Chem 12 Hydrolysis (II 13)

Hydrolysis

salts dissociate 100% into water

the ions in the salt will either

- undergo hydrolysis (react)
- be spectators (do nothing)

hydrolysis = reaction between an ion from a salt and water

resulting solution will be acidic or basic

If the ion is on the base (right) side of the "Table of Relative Strengths" then the solution is basic

Ex/ $SO_4^{2-} + H_2O \rightarrow HSO_4^- + OH^-$

if the ion is on the acid (left) side, then the solution is acidic

Ex/ $NH_4^+ + H_2O \rightarrow NH_3 + H_3O^+$

amphiprotic ions (negative charge + hydrogen) are on both sides → compare K_a to K_b to decide pH of solution

Ex/

1 $KF \rightarrow K^+ + F^-$ (F⁻: base)

$F^- + H_2O \rightarrow HF + OH^-$

2 $(NH_4)_2SO_4 \rightarrow NH_4^+ + SO_4^{2-}$ (NH_4^+: acid; SO_4^{2-}: base)

$NH_4^+ + H_2O \rightarrow NH_3 + H_3O^+$

$SO_4^{2-} + H_2O \rightarrow HSO_4^- + OH^-$

$K_a = 5.6 \times 10^{-10}$ $\quad K_a > K_b$ ∴ acidic

$K_b = \frac{K_w}{K_a}$

$= \frac{1.0 \times 10^{-14}}{1.2 \times 10^{-2}}$

$= 3 \times 10^{-13}$

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

There are many other sites that offer Tutorials and How Tos that could be of interest to FreePBX users. Some of these were written with a particular distribution in mind, but may be usable (or at least get you started in the right direction) if you use a different distribution. We have NOT tested most of these and simply offer links to these sites as a convenience. In other words, if something doesn't work as expected, take it up with the author of the article (although if things really go badly, you may wish to post a comment to that effect on this page). Also note that many of these articles may have at least some outdated information.

If you should discover a dead link, please keep in mind that you may still be able to view the page by right-clicking on the link, copying the link (the URL) to your clipboard, then going to the Wayback Machine (link is external) and pasting the link in there, then clicking the "Take Me Back" button. Or, if you copy and paste the link title into Google, you may find that Google has a cached copy of the page.

Why we are boycotting CVS/Chase

CVS/Chase and Armstrong Development are suing the City of Sebastopol over the recent moratorium on new drive-though businesses which will drain a large quantity of money from the city coffers in legal fees (estimated at up to $100,000 initially) The City has many budget about $60 000 to pay for such litigation The CVS record of civil and criminal misconduct includes.

In 2006 CVS paid $19 750 000 to settle a class action suit over illegal labor practices.

In 2009 CVS Caremark paid $38 500 000 to settle a case for deceptive business practices filed by 28 attorney generals Also in 2008 CVS Caremark was in court over corruption charges for which a Rhode Island state senator was sentenced to 2 years in prison

In 2009 they were charged with failure to protect patient privacy in violation of federal law and in a related suit paid $2 250 000 to settle a Department of Health and Human Services claim for failing to protect patient privacy under the Health Insurance Portability and Accountability Act

In 2010 they were served with a subpoena due to their business practices being under investigation by twenty four states regarding their customer incentive programs Also in 2010 CVS Caremark was sued by members of the American Pharmacies group in Texas under the Racketeer Influence and Corrupt Organizations Act (RICO) over their requiring patients to buy maintenance medications only from CVS

In 2011 they were sued in Federal Court by pharmacies in North Carolina for threatening to raise co-pays on patients who used independent business to fill prescriptions Also in 2011 a nation-wide class action suit was filed over billing fraud in which CVS was taking cash at the time of sale and then double billing customer's HSA's

That year they paid $17 000 000 to settle a related whistle blower case for fraud

In 2012 they paid $5 000 000 to settle Federal Trade Commission charges over misrepresenting prices of certain Med care drugs Also in 2012 they settled a $13 000 000 suit filed by the Ventura County DA for extensive mishandling of toxic waste

JP Morgan Chase received $84 7 billion in bail out funds of which $64 billion is still on the backs of tax payers Since 2009 their executive bonuses fees and credit card interest rates continued to grow while record profits were posted and lending declined They are among the leaders in home foreclosures and are currently being sued by the New York State Attorney General for fraudulent foreclosure practices They are now under criminal investigation by the FBI over their recent derivatives trading

CVS and Chase are two corporations with well documented records of finding it more profitable to engage in illegal practices and pay tens of millions of dollars in civil and criminal fines annually rather than change their business tactics If you are concerned about big box stores (whose profits do not stay in Sonoma County) displacing local merchants or about increased congestion and mail blight at the center of Sebastopol please join us in urging CVS/Chase to drop their law suit against the City of Sebastopol and to remain in their current location Many residents of Sebastopol are boycotting them until they agree to do so

Thank you

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

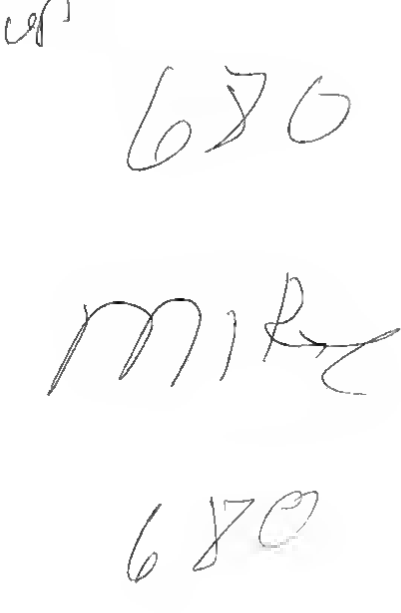
Rob's Test!



Deductions and Adjustments Worksheet

Note. Use this worksheet *only* if you plan to itemize deductions or claim certain credits or adjustments to income.

1	Enter an estimate of your 2012 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local taxes, medical expenses in excess of 7.5% of your income, and miscellaneous deductions	1	$
2	Enter: { $11,900 if married filing jointly or qualifying widow(er); $8,700 if head of household; $5,950 if single or married filing separately }	2	$
3	**Subtract** line 2 from line 1. If zero or less, enter "-0-"	3	$
4	Enter an estimate of your 2012 adjustments to income and any additional standard deduction (see Pub. 505)	4	$
5	**Add** lines 3 and 4 and enter the total. (Include any amount for credits from the *Converting Credits to Withholding Allowances for 2012 Form W-4* worksheet in Pub. 505.)	5	$
6	Enter an estimate of your 2012 nonwage income (such as dividends or interest)	6	$
7	**Subtract** line 6 from line 5. If zero or less, enter "-0-"	7	$
8	**Divide** the amount on line 7 by $3,800 and enter the result here. Drop any fraction	8	
9	Enter the number from the **Personal Allowances Worksheet**, line H, page 1	9	
10	**Add** lines 8 and 9 and enter the total here. If you plan to use the **Two-Earners/Multiple Jobs Worksheet**, also enter this total on line 1 below. Otherwise, **stop here** and enter this total on Form W-4, line 5, page 1	10	

Two-Earners/Multiple Jobs Worksheet (*See Two earners or multiple jobs on page 1.*)

Note. Use this worksheet *only* if the instructions under line H on page 1 direct you here.

1	Enter the number from line H, page 1 (or from line 10 above if you used the Deductions and Adjustments Worksheet)	1	
2	Find the number in **Table 1** below that applies to the **LOWEST** paying job and enter it here. **However**, if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3"	2	
3	If line 1 is **more than or equal to** line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4, line 5, page 1. **Do not** use the rest of this worksheet	3	

Note. If line 1 is **less than** line 2, enter "-0-" on Form W-4, line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4	Enter the number from line 2 of this worksheet .... 4 ____		
5	Enter the number from line 1 of this worksheet .... 5 ____		
6	**Subtract** line 5 from line 4	6	
7	Find the amount in **Table 2** below that applies to the **HIGHEST** paying job and enter it here	7	$
8	**Multiply** line 7 by line 6 and enter the result here. This is the additional annual withholding needed	8	$
9	**Divide** line 8 by the number of pay periods remaining in 2012. For example, divide by 26 if you are paid every two weeks and you complete this form in December 2011. Enter the result here and on Form W-4, line 6, page 1. This is the additional amount to be withheld from each paycheck	9	$

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. Internal Revenue Code sections 3402(f)(2) and 6109 and their regulations require you to provide this information; your employer uses it to determine your federal income tax withholding. Failure to provide a properly completed form will result in your being treated as a single person who claims no withholding allowances; providing fraudulent information may subject you to penalties. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation; to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws; and to the Department of Health and Human Services for use in the National Directory of New Hires. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Code section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the instructions for your income tax return.

Re: [Google Voice Help] I am unable to erase/archive messages all of a sudden...When I press "7" now, it is as if I pressed "9." Inbox

Google Help to me 12:51 PM (14 minutes ago)

wkreft has posted an answer to the question "I am unable to erase archive messages all of a sudden When I press "7" now it is as if I pressed "9" "

It hasn't been working for me for several days either about which I had started a thread myself not having turned this one up in my prior search

They hadn't even yet fixed the problem with calls being ended after 30 minutes when this problem came up as well Appalling support and frankly still a rather disappointing service in terms of the sheer number of broken features for so many users for a service which has been in operation as long as this one has (But as it took them literally YEARS to officially graduate Gmail from Beta status perhaps this should surprise no long term Google service users)

Wood Suggestion box Wall Mount Instructions

1) Attach wood block to the pre-drilled holes on the back of the unit with the screws provided(fig.1)
2) Cut out the template on the bottom of these instructions.
3) Locate the position on the wall where unit will be mounted. It is recommended to secure the unit to a wood stud. If you are not securing to a wood stud, it is recommended to use the proper wall anchors for the wall you are mounting to
4) Tape the template on wall.
5) Drill 1/8-inch holes through the two locator marks on the template.
6) Screw the 2 provided into the holes. Leave approximately an 1/8-inch gap between the wall and bottom of the head of the screw
7) Mount Box on the wall.

Deductions and Adjustments Worksheet

Note. Use this worksheet only if you plan to itemize deductions or claim certain credits or adjustments to income.

1 Enter an estimate of your 2012 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local taxes, medical expenses in excess of 7.5% of your income, and miscellaneous deductions . . . . . 1 $

2 Enter { $11,900 if married filing jointly or qualifying widow(er) / $8,700 if head of household / $5,950 if single or married filing separately } . . . . . 2 $

3 **Subtract** line 2 from line 1. If zero or less, enter "-0-" . . . . . 3 $

4 Enter an estimate of your 2012 adjustments to income, such as contributions to a traditional IRA and student loan interest . . . . . 4 $

5 **Add** lines 3 and 4 and enter the total. (Include any amount for credits from the *Converting Credits to Withholding Allowances for 2012 Form W-4* worksheet in Pub. 505.) . . . . . 5 $

6 Enter an estimate of your 2012 nonwage income (such as dividends or interest) . . . . . 6 $

7 **Subtract** line 6 from line 5. If zero or less, enter "-0-" . . . . . 7 $

8 **Divide** the amount on line 7 by $3,800 and enter the result here. Drop any fraction 8

9 Enter the number from the **Personal Allowances Worksheet**, line H, page 1 9

10 **Add** lines 8 and 9 and enter the total here. If you plan to use the **Two-Earners/Multiple Jobs Worksheet**, also enter this total on line 1 below. Otherwise, stop here and enter this total on Form W-4, line 5, page 1 10

Two-Earners/Multiple Jobs Worksheet (See *Two earners or multiple jobs* on page 1.)

Note. Use this worksheet only if the instructions under line 1 on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line 10 above if you used the **Deductions and Adjustments Worksheet**) 1

2 Find the number in **Table 1** below that applies to the **LOWEST** paying job and enter it here. **However,** if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3" 2

3 If line 1 is more than or equal to line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4, line 5, page 1. **Do not** use the rest of this worksheet 3

Note. If line 1 is less than line 2, enter "-0-" on Form W-4, line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet 4

5 Enter the number from line 1 of this worksheet 5

6 **Subtract** line 5 from line 4 6

7 Find the amount in **Table 2** below that applies to the **HIGHEST** paying job and enter it here . . . . . 7 $

8 **Multiply** line 7 by line 6 and enter the result here. This is the additional amount to withhold each pay period . . . . . 8 $

9 Divide line 8 by the number of pay periods remaining in 2012. For example, divide by 26 if you are paid every two weeks and you complete this line on the first payday of the year. If you complete this line on the second payday, enter the amount from line 8 of your 2011 Form W-4 worksheet. If you complete this line on any other payday, see *Pub. 505* for the amount to enter . . . . . 9 $

Subject: Chartered Accountant professional services

Dear Owner of Land 'N Scape Inc.

My name is Sviatoslav Feshchenko. I am a Chartered Accountant and would be delighted to have you as my client. As a full service accounting and tax practice, I offer a range of professional services suited to small and medium sized businesses, including:

- Accounting (financial statement preparation (NTR) bookkeeping)
- Tax compliance (personal and corporate return preparation HST returns payroll assistance)
- Tax advisory (tax minimization strategies, new business incorporation, corporate reorganizations owner manager remuneration planning and much much more)
- Tax dispute resolution (CRA audits, reassessments, objections and appeals, unfiled returns (last 12 years), tax amnesty (voluntary disclosure) and more)
- Business acquisitions (asset vs shares analysis of tax implications, tax risk assessment)

My primary goal is to ensure you are always paying the least amount of tax while being in full compliance with tax law.

I would like to extend my invitation to you for a no cost, no obligation consultation to discuss your particular circumstances and offer ways I can help you. For more information on the services I offer please visit my website at www.feshchenko.com or call me at 613 912-8061.

I sincerely appreciate the time you took in reading this letter. Please feel free to contact me with any questions you may have or if you wish to book an appointment.

Sincerely,

Sviatoslav Feshchenko, CPA, CA

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1555 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to Fax/zero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Test Fax Machine For Free

You can fax something interesting to 1-888-877-1655 or 1-509-200-1300 and it should appear in *http://faxmy.net/* within a couple of minutes. Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here.

Testing Your Fax Machine with the HP Fax Test Service

1. Send a one-page black and white test fax to 1 888 Aptitune (1 888-174-2963).

2. When your fax is received by the HP Fax Test Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that your own both send and receive a fax with your fax machine.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to when plans to send or receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent your from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic reports* option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different printers, consult the product *User's Guide* for your specific steps.

Low Fat Baked Ziti with Spinach

A perfect weeknight meal the whole family will enjoy. Baked ziti is a staple in my home, sneaking spinach into it is a great way to get your picky kids to eat more leafy greens without any complaints. Perfect with a garden salad on the side. Tons makes enough for eight, so if you have a small family you'll probably have leftovers for lunch or dinner the next day

Low Fat Baked Ziti with Spinach
Sinta's Weight Watcher Recipes
Servings: 8 Serving Size: 1 dish Points: 6 pts Points+: 8 pts
Calories: 337.8 Fat: 7.1 g Protein: 17.6 g Carb: 54.7 g Fiber: 7.6 g

- 1 lb high fiber pasta such as Rienzi Smart Taste
- 28 oz crushed tomatoes (I prefer Tuttorosso)
- 1 tsp olive oil
- 3 cloves garlic,minced
- 10 oz frozen spinach, thawed
- 1 tsp oregano
- 2 tbsp chopped fresh basil
- salt and fresh pepper to taste
- 8 oz fat-free ricotta
- 1/4 cup Parmesan
- 2 cups (8 oz) part skim mozzarella
- Spray olive oil (I used my Misto)

Preheat oven to 375°. **Spray** a 9x13 baking pan with nonspray.

In a large pot of salted water, **cook** pasta according to instructions until al dente. Drain and return to pot.

Meanwhile, in a medium saucepan, **add** olive oil and sauté garlic. **Add** chopped spinach, salt,pepper and chopped tomatoes. **Season** with basil, oregano, salt and pepper.

Add sauce to the pasta and **combine** but stir. Add half of the mozzarella, Parmesan cheese and ricotta. **Mix** well then transfer to the baking pan.

Pour the pasta mixture into the prepared pan and **spread** evenly. **Top** with the remaining mozzarella.

Bake for 30 minutes, or until mozzarella is melted and the edges are lightly chopped.

This can be made up to a day in advance and stored, tightly covered, in the refrigerator. Let sit at room temperature for 30 minutes before cooking.

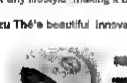
TZU THÉ
REVOLUTIONIZING THE GREEN TEA EXPERIENCE

Check out Booth #4446 at this year's Winter Fancy Food Show to find Tzu Thé's 100% Natural, EGCG Rich Green Tea, Nutrition Bars and Innovative Accessories

(Atlanta GA)- This year the tea market reached a whopping 5 billion dollars in sales. Inevitably leading to an immense amount of specialty gourmet, supermarket natural foods and gift basket buyers trying to get their hands on a piece of this golden pie. However what will truly make a tea stand out in this overcrowded market is not only quality, but versatility and convenience. When looking for such a tea look no further than **Tzu Thé at Booth #4446 at the NASFT Fancy Food Show in San Francisco.** With their world class packaging, Tzu The offers healthy, convenient and fashionable green tea products for any lifestyle, making it truly "revolutionary."

Tzu Thé's beautiful, innovative and unique packaging will draw the consumer's eye directly to the product on the shelves. **Tzu Thé** is the first green tea company to offer the single-serving T-POD™ filled with premium loose dry green tea leaves that are pesticide-free and packed full of EGCG[1]. These convenient individual tea pods make drinking green tea easy for consumers on-the-go. For even more convenience **Tzu Thé** has introduced a line of accessories. The first is the T-Buddy™, a "Two Headed" portable tea bottle with a built in infuser that doubles as a tea mug and a tea pot for hot or cold beverages on the go. The second is T2-GO, a steeping device that snaps on to standard 12oz and 16oz hot paper cups.



Tzu Thé has also combined all the health benefits of green tea with the popularity and convenience of food bars, creating the innovative T-Bar™. The T-Bar™ is a raw, whole food, green tea nutrition bar that has been cold processed, promoting optimum enzyme activity. These vegan-friendly bars contain

[1] The most potent form of antioxidant, providing health benefits that **may** help to reduce risks of cancer and tumors, lower cholesterol, help with digesting excess fat, and even protect against the common cold virus.

---

This Brother Inkjet machine has been finely tuned to provide excellent accurate and long lasting printed pages when using Genuine Brother Innobella(TM) Ink.

The use of non Brother inks in this machine may potentially result in inferior output quality and/or machine damage

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

To change the overall look of your document, choose new Theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. On the Theme gallery and the Quick Styles gallery, provide reset commands so that you can always restore the look of your document to the original contained in your current template. On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

Finishes

Common Manufacturers:

Clay:
Ludowici
Sierra Fe'
Allura
Tejas Bods USA

Concrete:
Meridian Lifa Tile
Hanson
Entegra

Clay:

Natural (natural fired clay)

Blended – Often, for esthetics, several tones of natural will be used in a pattern to produce a blended look.

Glazed (glazed surface) – an enamel coloring is applied to the surface and when fired, it has a glossy finish

Matte – a glazed tile in which the glaze has been roughened, taking the shine away effect

Painted

Concrete.

Natural - Raw Concrete

Painted

Colored Through – The pigment is put into the concrete resulting in the same color through out the tile

Slurry – The surface is painted and then heated to produce a glazed appearance. Often times it will have an orange peel texture

Broom Swept – this is actual lined ridges in the surface of the concrete

Install Standards

floridabuilding.org

The Install Standards for Florida come from The Florida Building Code

1807.A.4 Application. *Clay and concrete tile shall be applied in accordance with the manufacturer's installation instructions or recommendations of the FRSA/TRI 07320 manual.*

floridaroof.com
flaroofing.org

The FRSA/TRI manual is "Concrete and Clay Roof Tile Installation Manual " This manual was created in conjunction by Florida Roofing, Sheet Metal and Air Conditioning Contractors Association Inc (http://www.floridaroof.com/) and The Tile Roofing Institute (http://www.flaroofing.org/)

This manual details how tile roofs are to be installed in Florida

Disclaimer: The following document is provided as a reference for educating about Concrete & Clay tile Roofing only. It is not to be used as a standards and procedures manual for handling Tile Roof claims. Each claim is and should be handled on its own merits. The hope and desire of the Quality Assurance & Training Department is to establish a greater understanding of Tile Roofing in Florida.

She says: "No."

The husband says: "She's lying. She hid it up in the attic."

"Don't believe him, he's getting senile," she says.

But the agents sit the man down and begin to question him. "Tell us the story from the beginning," says one of the agents.

"Well, when Sally and I were walking home from school yesterday ..."

At this, the FBI guy looks at his partner and says:,"We're outta here ..."

Kale, Mushroom and Tomato Saute with Pan-Fried Polenta

Serves 4

If you're a mushroom lover use different varieties of mushrooms like shiitake, portobello or cremini in this rich savory saute. For extra flavor try using olive oil from the jar of tomatoes in lieu of regular olive oil

Ingredients

2 tablespoons olive oil, divided
1/2 pound sliced button mushrooms
Salt and pepper to taste
8 oil-packed sun-dried tomatoes, drained and roughly chopped
2 cloves garlic, finely chopped
1 bunch kale (about 3/4 pound), stemmed and roughly chopped
1 (18-ounce) roll prepared polenta, cut into 8 rounds
1/4 cup grated Parmesan cheese (optional)

Method

Heat 1 tablespoon of the oil in a large skillet over medium high heat. Add mushrooms, salt and pepper and cook, stirring occasionally, until softened, about 5 minutes. Add tomatoes and garlic and cook another 2 minutes. Stir in kale and 1/4 cup water, cover, reduce heat to medium low and cook until kale begins to wilt, about 2 minutes. Toss well, season with salt and pepper, cover and cook until wilted, about 2 minutes more. Cover and set aside.

Heat remaining 1 tablespoon oil in a large nonstick or cast iron skillet over medium high heat. Arrange polenta in skillet in a single layer (working in batches, if needed) and cook, flipping once, until golden brown on both sides, 5 to 6 minutes total. Transfer polenta to a paper towel-lined plate as done.

Arrange polenta on plates, spoon kale and mushroom mixture over the top, garnish with cheese and serve.

Fax something interesting toll free to 1-888 877 1655 or 1 503-200 1300

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness

You can fax something interesting to 1 888 877 1655 (your boss will never notice... maybe) or 1 503 200 1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work

TEST

Survey view Displays the active photo with selected photos so that you can evaluate them. The active photo has a white border. Change the active photo by clicking a different thumbnail, and deselect a photo in Survey view by clicking the ☒ in the lower right corner of the thumbnail.

The Library module contains buttons and commands for switching between views. See "Switching between Grid, Loupe, Compare, and Survey views" on page 49. You can also display these views of the Library module in a second window, so you can view one second more than one of your photos. See "Displaying the Library on a second monitor" on page 21.

The panels on the left side of the Library module are primarily for displaying specific photos. Use them to navigate and manage the folders that contain your photos, to view your collections of photos, and to adjust the zoom level of your photos in Loupe view. See "View the contents of a folder" on page 61 and "Work in collections" on page 68.

The Library Filter bar at the top of the Grid view allows you to find photos by selecting categories of metadata, filtering by flags, ratings, and color labels, and performing a text search. Being able to search for and find photos is important when you want to locate specific images, assemble a group of photos into a slide show or web photo gallery or print your photos on a contact sheet. See "Find photos using the Library Filter bar" on page 94.

The panels on the right side of the Library module let you view a histogram of the active photo, and view and add metadata and keyword tags to photos. The Quick Develop panel lets you quickly apply tone adjustments to photos. The tone adjustments in the Quick Develop panel in the Library module are the same as their counterparts in the Develop module. However the Develop module has more precise controls for making adjustments and corrections to the image. See "Adjust images using the histogram" on page 186, "Viewing and editing metadata" on page 80, and "Using the Quick Develop panel" on page 98.

Depending on the view, the toolbar below the preview area contains controls for sorting, applying ratings, rotating photos, playing an impromptu slide show, or viewing information about the photo. See "Show controls in the Library module toolbar" on page 28.

Like all modules in Lightroom, the Library module displays the Filmstrip along the bottom. Applying filters to show only certain photos in the Filmstrip determines which photos appear in the Grid view. See "Filter photos in the Filmstrip and Grid view" on page 46.

Applying adjustments in the Develop module: Basic workflow

The Develop module in Lightroom includes controls for globally adjusting the color and tonal scale of your photos, as well as for making local adjustments. All the adjustments you make in Lightroom are nondestructive. With nondestructive editing, your original file is not altered, whether you import it as a raw file or a rendered file such as a JPEG or TIFF. Your edits are stored in Lightroom as a set of instructions that are applied to your photo in memory. Nondestructive editing means you can explore and create different versions of your photo without degrading your original image data.

Though wolves are trainable, they lack the same degree of tractability seen in dogs. They are generally not as responsive as dogs are to coercive techniques involving fear aversive stimuli and force. Generally, far more work is required to obtain the same degree of reliability seen in most dogs. Even then, once a certain behavior has been repeated several times, wolves may get bored and ignore subsequent commands

Hail Mary

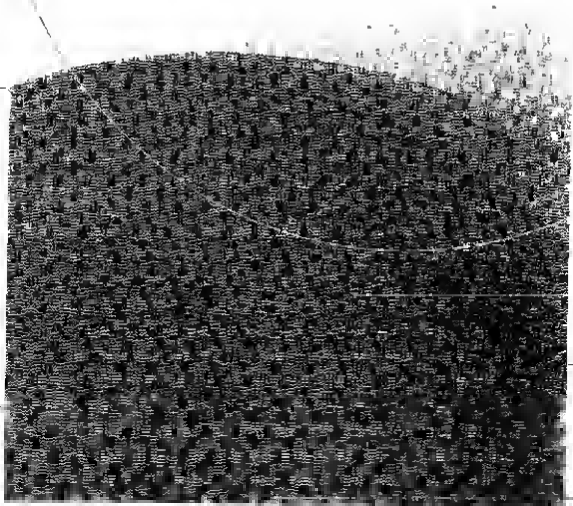
Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

"Hail Mary, full of grace, The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen." (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

History guide



- **minrate** – Minimum transfer rate used during fax rate negotiation. See section *3.2* for a list of valid settings. The default minimum transfer rate is 2400.
- **modem** – A comma separated list of one or more of the possible values. The default value is "V17,V27,V29". This option is intended to replace the deprecated FAX_FORCE_xx and FAX_DISABLE_xx channel variables.

90 DAY LIMITED WARRANTY

503-200-1300

This consumer warranty extends to the original consumer purchaser of any ESCALADE® SPORTS Product (hereinafter referred as the "Product").

WARRANTY DURATION: This Product is warranted to the original consumer purchaser of a period of ninety (90) days from the original purchase.

WARRANTY COVERAGE: ESCALADE SPORTS warrants to the original Consumer Purchaser that any Product of its manufacture is free from defects in material and workmanship when used for the intended purpose under normal use and conditions. THIS WARRANTY IS VOID IF THE PRODUCT HAS BEEN DAMAGED BY ACCIDENT, UNREASONABLE USE, NEGLIGENCE, IMPROPER SERVICE, FAILURE TO FOLLOW INSTRUCTIONS PROVIDED WITH THE PRODUCT OR OTHER CAUSES NOT ARISING OUT OF DEFECTS IN MATERIAL AND WORKMANSHIP.

WARRANTY PERFORMANCE: During the stated ninety (90) day warranty period, ESCALADE SPORTS shall repair or replace with a comparable model, and Product, or component thereof, which may prove defective under normal use and proper care, and which our examination shall disclose to our satisfaction to be true defective, please contact our Warranty Dept.

1-800-873-3826 / Warranty Dept.

Or Write us at:
Escalade® Sports, Inc. - P.O. Box 889 Evansville, IN 47706 - Attn: Warranty Dept.

Or E-mail us at:
customerservice@escaladesports.com

Other than shipping requirements, no charge will be made for such repair or replacement of In-warranty Products. ESCALADE® SPORTS strongly recommends that the Product is insured for value prior to mailing.

WARRANTY DISCLAIMERS: ANY IMPLIED WARRANTIES ARISING OUT OF THIS SALE, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE ABOVE NINETY (90) DAY WARRANTY PERIOD. ESCALADE® SPORTS SHALL NOT BE LIABLE FOR LOSS OF USE OF THE PRODUCT OR OTHER CONSEQUENTIAL OR INCIDENTAL COSTS, EXPENSES OR DAMAGES INCURRED BY THE CONSUMER OF ANY OTHER USE.

Some states do not allow the exclusion or limitation of implied warranties or consequential or incidental damages, so the above limitations or exclusions may not apply to you.

LEGAL REMEDIES: This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

REALTORS.

SELLERS' ADDENDUM TO DISCLOSURE

Disclosure to Seller of Brokerage Duties, Responsibilities and Services

A real estate broker may work with one or both parties to a real estate transaction. The Oklahoma Seller Relationships Law (Title 59, Oklahoma Statutes, §858-351 – 858-363) allows a real estate firm to provide brokerage services to both parties to the transaction. This could occur when a firm has contracted with a seller to sell their property and a prospective buyer contacts that same firm to see the property. If the prospective buyer wants to make an offer on the property, the firm must now provide a written notice to both the buyer and seller that the firm is now providing brokerage services to both parties to the transaction.

Oklahoma real estate brokers have mandatory duties and responsibilities to all parties in a real estate transaction. These duties and responsibilities shall be described and disclosed in writing prior to signing a contract to sell, purchase, lease, option or exchange real estate. These duties and responsibilities are to:

- Treat all parties with honesty and exercise reasonable skill and care.
- Receive all written offers and counteroffers, reduce offers or counteroffers to a written form upon request of any party to a transaction and present timely all written offers and counteroffers (unless specifically waived in writing by a party).
- Timely account for all money and property received by the broker.
- Disclose information pertaining to the property as required by the Residential Property Condition Disclosure Act.
- Comply with all requirements of The Oklahoma Real Estate License Code and all applicable statutes and rules.
- Keep confidential information received from a party or prospective party confidential unless written consent is granted by the party, the disclosure is required by law, or the information is public or becomes public on the results of actions from a source other than the broker. Confidential information includes:
  1. That a party is willing to pay more or accept less than what is being offered.
  2. That a party or prospective party is willing to agree to financing terms different from those offered.
  3. The motivating factors of the party or prospective party purchasing, selling, leasing, optioning or exchanging the property.
  4. Any information specifically designated as confidential by the party unless such information is public.

A broker has additional duties and responsibilities only to a party for whom the broker is providing brokerage services. These duties and responsibilities shall also be described and disclosed in writing prior to signing a contract to sell, purchase, lease, option, and exchange real estate. These duties are to:

- Inform the party in writing when an offer is made that the party will be expected to pay certain costs, brokerage services costs and approximate amount of the costs.
- Keep the party informed regarding the transaction.

I understand and acknowledge that I have received written notice of disclosure to seller or buyer of brokerage duties, responsibilities and services:

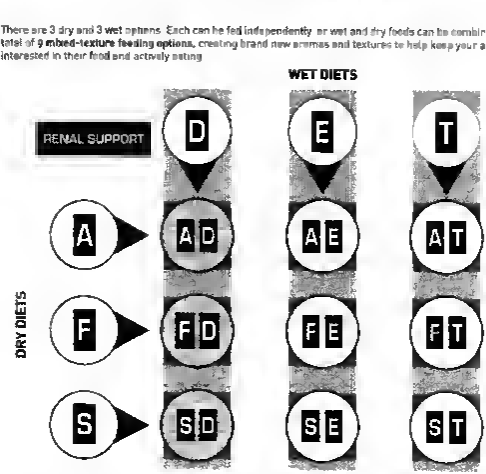
Mixed-texture Feeding Options for Combination Feeding

There are 3 dry and 3 wet options. Each can be fed independently or wet and dry foods can be combined for a total of **9 mixed-texture feeding options**, creating brand new aromas and textures to help keep your patients interested in their food and actively eating.



Additional Resources

When choosing to recommend mixed feeding, it's important to recommend an amount of both the dry and wet products to the pet owner. Download the tables with recommended mixed feeding amounts for cats and dogs at www.royalcanin.com/renal, or ask your Royal Canin representative for a mixed-texture feeding wheel.

*** Solution ***

The WLAN access point/router cannot be detected

1 Check the following 4 points

- Make sure that the WLAN access point/router is powered on.
- Move your machine to an obstruction-free area, or closer to the WLAN access point/router
- Temporarily place your machine within about one meter (3.3 ft.) from the WLAN access point when you are configuring the WLAN settings.
- If your WLAN access point/router is using MAC address filtering, confirm the MAC address of the Brother machine is allowed in the filter.

2 If you manually entered the SSID and security information (SSID/authentication method/encryption method/Network Key) the information may be incorrect. Reconfirm the SSID and security information and re-enter the correct information as necessary.

How to confirm wireless security information (SSID/authentication method/encryption method/Network Key)

1) The default security settings may be provided on a label attached to the WLAN access point/router. Or the manufacturer's name or model no. of the WLAN access point/router may be used as the default security settings.
2) See the documentation provided with your WLAN access point/router for information on how to find the security settings.

- If WLAN access point/router is set to not broadcast the SSID, the SSID will not automatically be detected. You will have to manually enter the SSID name.
- The Network key may also be described as the Password, Security Key or Encryption Key.

If you do not know the SSID and wireless security settings of your WLAN access point/router or how to change the configuration, see the documentation provided with your WLAN access point/router, ask the manufacturer of your access point/router or ask in your Internet provider or network administrator.

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Unplug all cords to remain plugged into phone jack.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC.

You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

To change the overall look of your document, choose new Theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so that you can always restore the look of your document to the original contained in your current template.

۳. در الگوریتم Quick Sort الف) بدترین حالت در چه شرایطی رخ می‌دهد؟ ب) بهترین حالت چطور؟ در هر مورد یک آرایه شامل اعداد ۱ تا ۱۰ را مثال بزنید که شرایط مورد نظر را داشته باشد. ج) برای آنکه ما حد ممکن از بدترحالت شدن مرتبه زمانی الگوریتم به $O(n^2)$ جلوگیری کنیم، چه تغییری پیشنهاد می‌کنید؟

۴. مجموعه‌ای شامل n نقطه ($n \geq 2$) داریم. الگوریتمی مبتنی بر روش تقسیم و حل ارائه کنید که فاصله بین نزدیکترین ۲ نقطه را مشخص کند. با انجام تحلیل پیچیدگی زمانی، مرتبه زمانی الگوریتم را معین کنید.

۵. مسئله کاشی‌کاری. کاشی‌هایی داریم که هر یک مجاهایی شکل زیر از ۳ قطعه با اندازه ۱×۱ تشکیل شده‌اند.

یک کاشی

اتاقی مربعی شکل با ابعاد $n \times n$ داریم (n توانی از ۲ است) که می‌خواهیم کف آن را با چنین کاشی‌هایی بپوشانیم. در کف این اتاق خمره‌ای با ابعاد ۱×۱ وجود دارد که نسبت روی آن را با کاشی می‌پوشانیم. الگوریتمی به روش تقسیم و حل ارائه کنید که عدد n (ابعاد اتاق) و موقعیت خمره را گرفته و عمل کاشی‌کاری را انجام دهد. مرتبه زمانی الگوریتم را مشخص کنید. در شکل زیر اتاقی با ابعاد ۸×۸ نمایش داده شده (مربع سیاه نشان خمره را نمایش می دهد) و در تصویر بعد حاصل کاشی‌کاری آن دیده می‌شود.

TEST

- Failure to submit a Self-Certification Affidavit, and if required, a medical examiner's certificate will result in the downgrade of your CDL to a non-commercial driver license. **Once downgraded, you must complete all knowledge and driving tests to reinstate your CDL.**

Remember, your driving record is your personal driving history, so it is a good idea to check your record occasionally to make sure that no incorrect information was reported.

Driver Responsibility Program (DRP)

This program was developed to encourage safe driving habits and requires DPS assess surcharges to individuals based on certain traffic offenses. These surcharges are assessed in two ways: a point system and conviction based.

- Points are assessed for Texas or out of state moving violation convictions: two (2) points for a conviction, and three (3) points for a conviction that resulted in a crash. Individuals are assessed a point surcharge annually if they maintain six (6) or more points on their driver record.
- A Conviction-based surcharge is a result of being convicted of Driving While Intoxicated, No Driver License, Driving While License Invalid, and No Insurance. Points are not assessed for these specific offenses. A conviction based surcharge will be assessed annually for three (3) years from the date of conviction. An individual can also pay all three (3) years in advance. DPS also offers programs that may reduce or waive surcharges. For more information about DRP please visit: http://www.dps.texas.gov/DriverLicense/drp.htm. To check your driver status please visit: https://txapps.texas.gov/txapp/txdps/dleligibility/login.do. Please note: Surcharges are in addition to other fees and do not replace a suspension, revocation, denial, disqualification or cancellation resulting from the same conviction.

If you have questions or need to make special arrangements to accommodate a disability prior to visiting a driver license office, please email us using our secure website at www.dps.texas.gov/contact.htm or call us at (512) 424-2600.

Montalvo Arts Center

Nestled against a wooded slope in the private and secluded Saratoga hills is the Montalvo Arts Center a beautiful Mediterranean-style mansion. Originally developed in 1912 as the private residence of Senator James Duval Phelan, the property is now home to an arboretum and a nonprofit center for the arts.

A narrow one-way road leads up to the Center As you round tha last turn, you get your first glimpse of the estate's expansive manicured lawns and colorful gardens, as well as the mansion's terra cotta tile roof, light stucco walls and wida veranda To your left, you'll also see the Love Temple, one of two ceremony sites on the grounds Recently renovated, it's an open-air white-columned pavilion, set at the end of a wide brick path. Cauples get married on its steps, with a view of the surrounding Mediterranean garden and tha Center and woods in the background. The long path lead ng down to the Love Temple makes for one of the most dramatic bridal entrances anywhere.

Directly behind the Canter the Oval Gardan offers a rose garden setting complete with classical statues and wisteria-covered pergolas. This open-air courtyard is an intimate and rlel ghtful place for a ceremony a brick pathway serves as your center aisle and a column-supported arcade is the backdrop for taking vows.

The Center's ground level and outdnor patio is the perfect place for your reception. Guests can mingle on the veranda, sipping champagne and sampling hors dioeuvres while enjoying splendid views of the estate's lawns and gardens. Reserve well in advance. The Montalvo Arts Center is an extraordinary site for an elegant and sophisticated wedding

Apple Planning Completely Redesigned iPhone for Fall 2012 Launch?

Tuesday December 27, 2011 9:00 am PST by Eric Slivka

MCM reports that Apple is planning to launch a completely redesigned iPhone in the fall of next year, following the trend set by the iPhone 4S of new hardware being released later in the year as opposed to the mid year timeframe used previously.

According to the report, the next iPhone will utilize an aluminum back panel, rather than the glass found on the iPhone 4 and 4S. This new design will [illegible]

THIS IS FACE UP

Testing to see if I can send a fax using majicjack

Welcome

There are so many people I would write to if I could and had the time. This is a last minute idea, but I have felt myself sinking after 1 week mark of Trent being gone. I love him dearly and he is all I was breathing for. He was and always will be my essence and as he grows, I want him to know that.

I have refrained from any negative comments in the hopes that individuals will realize their wrong doings. Thank you for your time.

"Right now we have the luxury to think of the holidays," says Frederick. "These families don't. They worry about their homes and cleaning it up and we want to be the ones thinking of the holidays for them."

For weeks, O'Leary and Frederick have been collecting hundreds of gifts for Sandy victims. "It's really amazing the response," says O'Leary. "A lot of people want to help."

"There are so many children who are affected," adds Frederick, "and we want them to have a nice holiday, so we jumped on it and started this organization to help those families in need."

Frederick says she was recently driving through the nearby beach community of Union, where she saw home goods scattered everywhere.

"Amongst the couches and everything, I saw a doll," she says. "And it was just muddy laying there, and right then it hit me: I need to do something for the children."

She says there are a lot of organizations on the Jersey Shore that are trying to provide clothing and shelter to hurricane victims. And rightly so. "But no one is thinking about the holidays. I felt we needed to make sure these families have presents for Christmas," Frederick says.

She says trying to help others has turned the tragedy around her into something positive.

"I tell everyone, I feel so sorry, but I feel so alive right now."

In fact, she says, Jersey Shore Santa may have changed her life.

"I never felt like I knew myself. I kind of slipped into it and it feels amazing. And quite frankly, I can't see myself doing anything else now."

It's also changed the lives of Beard's four children, who are now preparing lists for Santa.

"I want a Power Ranger," says John Paul. "I want a remote-control car," says Shane, adding, "I just want to make sure Santa makes it to my house!"

And thanks to Jersey Shore Santa, he will.

UNITED STATES DEPARTMENT OF COMMERCE
Economics and Statistics Administration
U.S. Census Bureau
Washington, DC 20233-0001
OFFICE OF THE DIRECTOR

Dear Resident:

The U.S. Census Bureau is conducting the American Community Survey. A Census Bureau representative will contact you to help you complete the survey. The survey will ask you questions about your household's characteristics, including such topics as education, employment, and housing. I would appreciate your help, because the success of this survey depends on you.

The American Community Survey produces critical up-to-date information that is used to meet the needs of communities across the United States. For example, results from the survey may be used to decide where new schools, hospitals, and fire stations are needed. Survey data are used by federal, tribal, state, and local governments to make decisions and to develop programs that will provide health care, education, and transportation services that affect you and your community. This survey information also helps communities plan for emergency situations that might affect you and your neighbors.

The Census Bureau chose your address, not you personally, as part of a randomly selected sample. You are required by U.S. law to respond to the survey (Title 13, United States Code, Sections 141, 193, and 221). We estimate this survey will take about 40 minutes of your time.

I want to emphasize that any information you give our representative will be kept confidential. By law, the Census Bureau cannot publish or release to anyone any information that would identify you or your household (Title 13, Section 9). The information you provide can be used only for statistical purposes.

If you have access to the Internet and want to learn more about the American Community Survey, please visit our website at census.gov/acs.

Thank you for your help.

Sincerely,

John H. Thompson
Director, U.S. Census Bureau

Viral Respiratory Illness [Adult]

You have an Upper Resp ratory Illness (URI) caused by a virus This illness is contagious during the first few days. It is spread through the air by cough ng and sneezing or by direct contact (touching the sick person and then touching your own eyes nose or mouth) Most viral illnesses go away within 7-10 days with rest and simple home remedies Sometimes the illness may last for several weeks Antibiotics will not kill a virus and are generally not prescribed for this condition

Homa Care

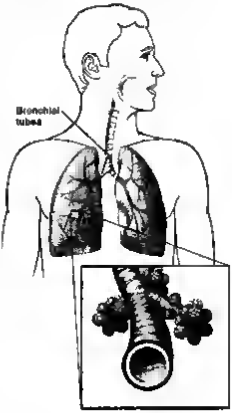
1) If symptoms are severe rest at home for the first 2 -3 days When you resume activity don't let yourself get too t red

2) Avoid being exposed to cigarette smoke (yours or others)

3) Tylenol (acetaminophen) or Ibuprofen (Advil Motrin) will help fever muscle aching and headache. (Persons under 18 with fever should not take aspirin since this may cause liver damage)

4) Your appetite may be poor so a light diet is fine. Avoid dehydration by drinking 6-8 glasses of fluids per day (water soft drinks juices, tea soup) Extra flu ds will help loosen secretions in the nose and lungs

5) Over-the-counter cold medicines will not shorten the length of time you re sick but they may be helpful for the following symptoms cough (Robitussin DM) sore throat (Chloraseptic lozenges or spray) nasal and sinus congestion (Actifed Sudafed, Chlortrimeton)



Follow Up

with your doctor or as advised if you don't improve over the next week

Get Prompt Medical Attention

If any of the following occur

– Cough with lots of colored sputum (mucus) or blood in your sputum

– Chest pain shortness of breath wheezing or have trouble breathing

– Severe headache face, neck or ear pain

– Fever over 100.4° F (38 0° C) for more than three days

– You can t swallow due to throat pain

Connection Failed (Error 756)

* Connection Failed.
* For details, please refer Troubleshooting or Quick setup Guide.

Solution

The WLAN access point/router cannot be detected.

1. Check the following 4 points.

- Make sure that the WLAN access point/router is powered on.
- Move your machine to an obstruction-free area (or closer to the WLAN access point/router).
- Temporarily place your machine within about one meter (3.3 ft.) from the WLAN access point when you are configuring the WLAN settings.
- If your WLAN access point/router is using MAC address filtering, confirm the MAC address of the adapter machine is allowed in the filter.

2. If you manually entered the SSID and security information (SSID/authentication method/encryption method/Network Key), the SSID may be incorrect.
Re-confirm the SSID and security information and re-enter the correct information on the screen.

- How to confirm wireless security information (SSID/authentication method/encryption method/Network Key)
1) The default security settings may be provided on a label attached to the WLAN access point/router. Or the manufacturer's name or model no. of the WLAN access point may be used as the default security settings.
2) See the documentation provided with your WLAN access point/router for information on how to find the security settings.

* If WLAN access point/router is set to not broadcast the SSID, the SSID will not automatically be detected. You will have to manually enter the SSID name.
* The Network key may also be described as the Password, Security Key or Encryption Key.

If you do not know the SSID or wireless security settings of your WLAN access point/router or how to change the configuration, see the documentation provided with your WLAN access point/router, ask the manufacturer of your access point/router or ask to your Internet provider or network administrator.

Deductions and Adjustments Worksheet

Note. Use this worksheet only if you plan to itemize deductions or claim certain credits or adjustments to income.

1 Enter an estimate of your 2011 itemized deductions. These include qualifying home mortgage interest, charitable contributions, state and local income taxes, medical expenses in excess of 7.5% of your income, and miscellaneous deductions . . . . . 1 $

2 Enter { $12,000 if married filing jointly or qualifying widow(er) / $8,400 if head of household / $6,000 if single or married filing separately } . . . . . 2 $

3 Subtract line 2 from line 1. If zero or less, enter "-0-" . . . . . 3 $

4 Enter an estimate of your 2011 adjustments to income and any additional standard deduction (see Pub. 919) . . . . . 4 $

5 Add lines 3 and 4 and enter the total. Include any amount for credits from the Converting Credits to Withholding Allowances for 2011 Form W-4 Worksheet in Pub. 919 . . . . . 5 $

6 Enter an estimate of your 2011 nonwage income (such as dividends or interest) . . . . . 6 $

7 Subtract line 6 from line 5. If zero or less, enter "-0-" . . . . . 7 $

8 Divide the amount on line 7 by $3,700 and enter the result here. Drop any fraction 8

9 Enter the number from the Personal Allowances Worksheet, line H, page 1 9

10 Add lines 8 and 9 and enter the total here. If you plan to use the Two-Earners/Multiple Jobs Worksheet, also enter it on line 8 below. Otherwise, stop here and enter this total on Form W-4, line 5, page 1 10

Two-Earners/Multiple Jobs Worksheet (See Two earners or multiple jobs on page 1.)

Note. Use this worksheet only if the instructions under line H on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line 10 above if you used the Deductions and Adjustments Worksheet) 1

2 Find the number in Table 1 below that applies to the LOWEST paying job and enter it here. However, if you are married filing jointly and wages from the highest paying job are $65,000 or less, do not enter more than "3" 2

3 If line 1 is more than or equal to line 2, subtract line 2 from line 1. Enter the result here (if zero, enter "-0-") and on Form W-4, line 5, page 1. **Do not use the rest of this worksheet** 3

Note. If line 1 is less than line 2, enter "-0-" on Form W-4, line 5, page 1. Complete lines 4 through 9 below to figure the additional withholding amount necessary to avoid a year-end tax bill.

4 Enter the number from line 2 of this worksheet 4

5 Enter the number from line 1 of this worksheet 5

6 Subtract line 5 from line 4 6

7 Find the amount in Table 2 below that applies to the HIGHEST paying job and enter it here . . . . . 7 $

8 Multiply line 7 by line 6 and enter the result here. This is the additional annual withholding needed . . . . . 8 $

9 Divide line 8 by the number of pay periods remaining in 2011. For example, divide by 26 if you are paid every two weeks and you complete this form in December 2010. Enter the result here and on Form W-4, line 6, page 1. This is the additional amount to be withheld from each paycheck . . . . . 9 $

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the internal revenue laws of the United States. Internal Revenue Code sections 3402(f)(2) and 6109 and their regulations require you to provide this information; your employer uses it to determine your federal income tax withholding. Failure to provide it may result in your being treated as a single person who claims no withholding allowances; providing fraudulent information may subject you to penalties. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation; to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws; and to the Department of Health and Human Services for use in the National Directory of New Hires. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to complete the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become important to the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Code section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the instructions for your income tax return.

Lucky for Life Matrix Change

- First day of sales for the updated game is **September 17, 2013** – **bet slips must go out on this day as well.**
- First drawing for the updated game is **September 19, 2013.**
- 2nd Prize will be $25,000 a year for life (to be paid for a minimum of 20 years)!
- Lucky for Life will now be the ONLY game in the country that offers 2 Lifetime Prizes!
- Both the top prize of $1,000 a day for life and the 2nd prize of $25 000 a year for life will have a lump sum payment option available
- Point of Sale material and advertisements will highlight the 2nd prize
- Game matrix is changing to 5 out of 43 numbers and 1 out of 43 numbers
- Changes to the matrix and prizes are detailed in the new "How to Play". The "How to Play" features a new shorter size, so be mindful that you keep it in front of the play slips so players see it
- Small reference cards were also made to go in a location near the terminal for clerks to have information on the game change at their fingertips.

Classic Chicken Pot Pie

Check out this budget friendly take on the classic recipe with chicken, mixed vegetables, a rich homemade white sauce and a flaky

prep time	total time	ingredients	servings
25 min	1 hr 5 min	10	6

Ingredients

CRUST

1box Pillsbury™ refrigerated pie crusts, softened as directed on box

FILLING

1/3cup butter or
1/3cup chopped onion
1/3cup all-purpose
1/2teaspoon salt
1/4teaspoon pepper
1 3/4cups Progresso™ chicken broth (from 32-oz carton)
1/2cup milk
2 1/2cups shredded cooked chicken or turkey
2cups Green Giant™ Steamers™ frozen mixed vegetables, thawed

- **1.** to 425°F. Make pie crusts as directed on box for Two-Crust Pie using 9-inch glass pie pan
- **2.** In 2-quart saucepan melt butter over medium heat. Add onion; cook 2 minutes, stirring frequently, until tender. Stir in flour, salt and pepper until well blended. Gradually stir in broth and milk. Cooking and stirring until bubbly and thickened.
- **3.** Stir in chicken and mixed vegetables. Remove from heat. Spoon chicken mixture into crust-lined pan. Top with second crust; seal edge and flute. Cut slits in several places in top crust.
- **4.** Bake 30 to 40 minutes or until crust is golden brown. During last 15 to 20 minutes of baking, cover crust edge with strips of foil to prevent excessive browning. Let stand 5 minutes before serving.

2. **Cargo Loss.** CARRIER shall be liable to BROKER for the full actual value of any loss, damage or injury to shipments tendered to it for transportation, except insofar and to the extent that such loss, damage or injury shall have resulted from the causes excepted in the Straight Bill of Lading published in the National Motor Freight Classification, the terms of which are incorporated by reference. BROKER shall file any claim arising under this paragraph with CARRIER within nine (9) months of the delivery or loss of the shipment and bring suit within two (2) years for the date of any claim's declined on. In the event BROKER shall fail to comply with these time limits, the claim shall be not timely filed, shall be barred and carrier shall have no liability to BROKER for the loss alleged.

3. **Status of CARRIER.** Carrier shall perform the transportation contemplated by this Agreement as an independent contractor, and neither its employees nor its agents shall be deemed to be those and the employment, hiring, training, supervising and controlling its drivers and helpers. CARRIER shall be responsible for the safe and lawful operation and the vehicles used in the performance of the transportation contemplated by this Agreement and shall hold BROKER harmless for any penalties, fines, assessments, claims or judgments resulting from the operation of the vehicles.

4. **Expenses.** CARRIER shall bear the costs and expenses of furnishing all fuel, oil, tires, and any other parts, supplies and equipment necessary or required for the safe operation and maintenance of the equipment. CARRIER shall bear all expenses, including the expenses of road service and repair in connection with the use and operation of the equipment and shall bear the cost and expense of maintaining the equipment in good repair and mechanical condition.

5. **Freight Documentation.** The Uniform "Freight Documentation Terms set forth as **Master Agreement**" may be utilized by the Parties. The terms and conditions of this Agreement shall prevail over those appearing on the form or any other form(s) used by the Parties for the delivery of freight. Any form(s) used by the Parties shall only be used for the purpose of documentation required by or referenced in this Agreement. Either Party, at its option, may supply any document required by or referenced in the Agreement in either paper or electronic form including, but not limited to, an electronically imaged, faxed, photocopied, or online posted version, and any such version shall be sufficient for all purposes under this Agreement. Unless specifically agreed to by the Parties, any joint movement involving another transportation entity to or from a point outside the U.S. shall not be considered as moving on a "through" bill of lading. Carrier agrees it will not subcontract, broker, interline or to use substituted services" by rail or motor carrier without the specific approval of Shipper. If for any reason this is done without permission, Carrier shall be liable to Shipper for any cargo loss, damage or injury to the same extent as if Carrier performed the service.

Day 1

[illegible]

CHAPTER 1: CELLULAR REACTION TO INJURY

Key issues – hypoxia, cyanide poisoning, free radicals, apoptosis, growth alterations (i.e. hypertrophy, atrophy, hyperplasia, etc…)

I. Hypoxia = inadequate oxygenation of tissue (same definition of as shock). Need O_2 for oxidative phosphorylation pathway – where you get ATP from inner Mito membrane (electron transport system, called oxidative phosphorylation). The last rxn is O_2 to receive the electrons. Protons are being kicked off, go back into the membrane, and form ATP, and ATP is formed in the mitochondria.

A. Terms:

1. Oxygen content = Hb x O_2 sat'n + partial pressure of arterial oxygen (there are the 3 main things that carry O_2 in our blood)

In Hb, the O_2 attaches to heme group (O_2 sat'n)
Partial pressure of arterial O_2 is O_2 dissolved in plasma

In RBC, four heme groups (Fe must be +2. If Fe+ is +3, it cannot carry O_2)
Therefore, when all four heme groups have an O_2 on it, the O_2 sat'n is 100%.

2. O_2 sat'n is the O_2 IN the RBC is attached TO the heme group = (measured by a pulse oximeter)

3. Partial pressure of O_2 is O_2 dissolved in PLASMA

O_2 flow: from alveoli through the interphase, then dissolves in plasma and increases the partial pressure of O_2, diffuses through the RBC membrane and attaches to the heme groups on the RBC on the Hb, which is the O_2 sat'n

Therefore – if partial pressure of O_2 is decreased, O_2 sat'n HAS to be decreased (b/c O_2 came from amount that was dissolved in plasma)

B. Causes of tissue hypoxia:

1. Ischemia (decrease in ARTERIAL blood flow …NOT venous)

MCC ischemia is thrombus in muscular artery (b/c this is the mcc death in USA = MI, therefore MI is good example of ischemia b/c thrombus is blocking arterial blood flow, producing tissue hypoxia)

Other causes of tissue ischemia: decrease in Cardiac Output (leads to hypovolemia and cardiogenic shock) b/c there is a decrease in arterial blood flow.

2. 2nd MCC of tissue hypoxia = hypoxemia

Hypoxia = big term

Hypoxemia = cause of hypoxia (they are not the same): deals with the partial pressure of arterial O_2 (O_2 dissolved in arterial plasma). Therefore, when the partial pressure of O_2 is decreased, this is called hypoxemia)

There are 4 causes of hypoxemia:

a. Resp acidosis (in terms of hypoxemia) – in terms of Dalton's law: the sum of the partial pressure of gas must = 760 at atmospheric pressure (have O_2, CO_2, and nitrogen. Nitrogen remains constant – therefore, when you retain CO_2, this is resp acidosis, when CO_2 goes up, pO_2 HAS to go down b/c must have to equal 760)
Therefore, every time you have resp acidosis, from ANY cause, you have hypoxemia b/c low arterial pO_2. Increase CO_2 = decrease pO_2, and vice versa in resp alkalosis)

b. Ventilation defects – best example is resp distress syndrome (aka hyaline membrane ds in children). In adults, this is called Adult RDS, and has a ventilation defect. Lost ventilation to the alveoli, but still have perfusion, therefore have created an intrapulmonary shunt. Exam question: pt with hypoxemia, given 100% of O_2 for 20 minutes, and pO_2 did not increase, therefore indicates a SHUNT (massive ventilation defect).

c. Perfusion defects – knock off blood flow
MCC perfusion called = pulmonary embolus, especially in prolonged flights, with sitting down and not getting up. Stasis in veins of the deep veins, leads to propagation of a clot and 3-5 days later an embolus develops and embolizes. In this case, you have ventilation, but no perfusion, therefore there is an increase in dead space. If you give 100% O_2 for a perfusion defect, pO_2 will go UP (way to distinguish vent from perfusion defect) b/c not every single vessel in the lung is not perfused.
Therefore, perfusion defects increase an increase in dead space, while ventilation defects cause intrapulmonary shunts. To tell the difference, give 100% O_2 and see whether the pO_2 stays the same, ie does not go up (shunt) or increases (increase in dead space)

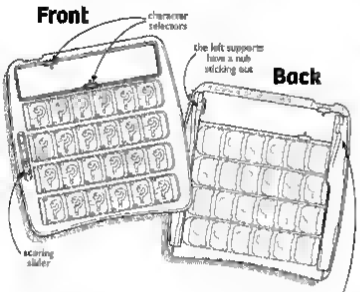
Guess Who?

Get to know the game:



Contents

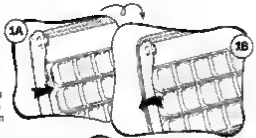
2 game trays • 2 character sheets • 4 supports (2 for each game tray) • 4 character selectors • 2 scoring sliders

ADULT ASSEMBLY REQUIRED.

Carefully remove the game pieces from the plastic frame. If needed, use an emery board or sandpaper to remove excess plastic from the game pieces. Discard the frame after removing all the game pieces. Pop out the character sheets from the cardboard parts sheet and recycle the waste.

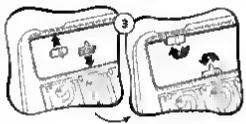
Assembly

1. Flip the game trays so the backs are showing. For both left and right supports, angle the tabs on the supports into the slots on the game trays (1A) then snap the supports into the game trays (1B).



2. Flip the game trays over so the fronts are showing, and snap the scoring sliders into place.

3. Snap the character selectors onto the top and bottom tracks of the large windows. Each game tray will have two character selectors.



Set-up

4. Decide which side of the character sheets you both want to play and slide it into place behind the doors.

5. You can play head-to-head by snapping the trays together as shown here; or play anywhere holding the trays up so your opponent can't see who you chose.

Fax Line Condition Test	PASS

A dial tone was not detected
Please check the items below then rerun this test.

Other equipment sharing the fax line can reduce the signal strength
Disconnect any equipment which is sharing the fax line
(including extension phones, answering machines,
and dial up computer modems)

If you are using a splitter or some other device between the fax
and the wall jack, remove it and connect the fax directly to the
wall jack.
If your HP device is connected to a Private Branch Exchange (PBX)
rather than the public telephone system, the Dial Tone Detection
test may fail
However you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings.

Payment Plan No. 38114-2014-P0000580

A hearing was held on 12/18/2013 to determine the ability of the defendant to pay the sentence of fines, costs and restitution imposed on 12/18/2013.

The defendant, Sam Dinnis, is hereby ordered to make payments to this court based on the payment schedule on the following page(s). For administrative efficiency, this case may be combined with other cases that have been ordered to be paid in installments.

Payments shall be made payable to Magisterial District Court 38-1-14 until all monies owed in the above referenced case are paid in full.

[illegible]	
Fine	$484.00
Costs	$114.10
Restitution	$0.00
Other	$66.20
TOTAL	$[illegible]

I acknowledge receipt of a copy of this order and further understand that if I do not make payments within the time specified, a warrant for my arrest may be issued in each case subject to the time payment order. Failure to comply with the payment schedule may result in the following:

1. Finding of **CRIMINAL CONTEMPT PURSUANT TO 42 Pa.C.S. 4137**
2. Suspension of driving privileges for violation of Title 75 filed [illegible] violations
3. Referral to a private collection agency if it is found that I am financially able to pay the fines, costs, or restitution imposed

I understand my obligations under this payment schedule and have been given an opportunity to ask my questions.

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Disconnect fax machine and all other devices from your modem and router, wait 30 seconds, and reconnect.
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device
- Connect fax machine directly to the Vonage device, bypassing any home wiring
- If faxing to a PC-based fax, try faxing directly to a fax machine instead.

Name: Steven Eagle (Customer ID 2706393)

NO PRESCRIPTION(S) WILL BE FILLED UNTIL A SIGNED AND DATED COPY OF THIS DOCUMENT AND A COMPLETED PATIENT INFORMATION FORM HAVE BEEN RECEIVED BY CANADAPHARMACY.COM.

CanadaPharmacy.com has established relationships with licensed pharmacies in Canada and licensed pharmacies in have countries, including but not limited to the United Kingdom, New Zealand and the United States, that have licensing requirements that are comparable to the laws in Canada. CANADAPHARMACY.COM(tm), in consultation with you and in accordance with your instructions select the appropriate pharmacy to fill your prescription(s) based on product quality, availability and price.

I, as the undersigned, being over the age of 21 hereby enter into this agreement (the "Agreement") with CanadaPharmacy.com intending to be legally bound.

Disclosure and Representations

1 I hereby represent and warrant to Vogue Marketing Inc. CanadaPharmacy.com, and each of their constituent entities, as well as to each of their affiliates, associates, related companies, subsidiaries and parent companies and each of their respective directors officers, shareholders employees contractors, successors and assigns (all such persons are hereafter collectively referred to as either "CanadaPharmacy.com" or the "CanadaPharmacy.com Agents") that:

2 I am delivering the Agreement to CanadaPharmacy.com because I wish to place an Order with CanadaPharmacy.com for certain and reasonable (the "Order"), on the terms and conditions set out herein,

3 The pharmaceutical(s) to be delivered to me in connection with my Order (the "Pharmaceutical(s)") were prescribed by a doctor licensed at practice medicine in the country state or other applicable jurisdiction in which I reside or where I sought treatment;

4 The prescription(s) for the Pharmaceutical(s) (the "Prescription") was lawfully obtained by me from that physician;

5 I will use the Pharmaceutical(s) strictly according to the instructions provided by the physician who prescribed the pharmaceuticals, or the person for whom such pharmaceutical(s) were prescribed,

6 I am making my own medical decisions according to the law of the place where I reside

7 The Prescription has not have altered in any way nor has it been filled prior to submission to CanadaPharmacy.com. I agree to provide any original Prescription to CanadaPharmacy.com by courier or by mail, to order that my Prescription be filled. I also undertake to immediately destroy all copies of my Prescription once it has been filled;

8 I am not seeking or relying on any medical information from CanadaPharmacy.com and have consulted a qualified physician licensed in the jurisdiction where I obtained the Prescription within the last year.

9 I will immediately contact the physician who provided the Prescription in the event I suffer any unexpected side effects from any of the Pharmaceutical(s).

10 I understand that it is my responsibility to have regular physical examinations by my primary U.S. licensed physician that is responsible for my care, including all suggested testing to ensure I have no medical conditions or problems that would constitute a contraindication to me taking the Pharmaceutical(s) being prescribed; and

11 I acknowledge that CanadaPharmacy.com, its employees and agents have relied on the entire medical and documentation that I am providing (including the Order the Prescription and any Patient Information Form) and I represent and confirm that I have fully and accurately disclosed all pertinent information and documentation to CanadaPharmacy.com. I agree to notify CanadaPharmacy.com of any changes to my physical or medical condition by providing an updated Patient Information Form.

Authorization and Consent

13 The authorizations and consents that I am providing herein to CanadaPharmacy.com commence on the date I sign this Agreement, and will continue until revoke them. I understand that I can revoke the consents and authorizations I have granted at any time by giving written notice to CanadaPharmacy.com of my condition in that regard.

12 I hereby authorize and appoint CanadaPharmacy.com or my agent and attorney for the limited purpose of taking all steps and signing all documents on my behalf necessary to obtain a prescription in the country where the dispensing pharmacy is located that is the equivalent of the prescription that I sent to CanadaPharmacy.com (the "Equivalent Prescription") to the same extent that I could do personally if I were present taking those steps and signing those documents myself. This authorization shall include, but not be limited to, collecting personal health

FAX US YOUR UNWANTED FAXES

In 2006, the Federal Communication Commission (FCC) gave businesses the right to "opt-out" from receiving faxes in the future. You may use this opt-out notice on the faxes you receive. Many companies do not take the time to remove faxes or opt-out improperly which results in continued unwanted faxes.

The EnviroFax Commission is a nonprofit corporation. Its assistance is FREE. EnviroFax does not sell goods or services and will not contact you.

PLEASE FAX YOUR UNWANTED FAXES TO THE ENVIROFAX COMMISSION. WE WILL CONTACT THE SENDER AND HAVE YOUR FAX NUMBER PERMANENTLY REMOVED FROM THEIR FAX LIST. THE SENDER HAS THIRTY (30) DAYS TO COMPLY.

Please make sure your fax number is on the fax you send to us.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

DRIVER INSTRUCTIONS CONFIRMATION

1. You driver must call American Freight Carrier to be dispatched
2. Please have your driver call us when he/she arrives at all pick ups and deliveries.
3. *PLEASE HAVE YOUR DRIVER PUT THE NAME OF YOUR COMPANY ON THE BOL PLEASE HAVE YOUR DRIVER WRITE HIS/HER NAME AS WELL AS SIGN THE BOL*
4. If your insurance policy does not include **ANY AUTO** you must provide the **VIN NUMBER** of the truck used on each load.
5. Absolutely do not split loads or use separate trailers for loads with additional stops. All loads must be picked up and delivered in one vehicle
6. **We require the POD within 12 hours** after delivery Please have your driver fax, email, or take a cell picture and submit it to us.

This will expedite your payment. Any POD after 24hrs could result in a delayed Payment.

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off fax machine and unplug power adapter from device and from wall outlet
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device: temporarily disconnect device from PC.

Mixed Acid-Base Disorders

R. W. Winters and M. H. Wade

Mixed acid-base disorders, the coexistence of one or more primary acid-base disturbances in the same patient, are common in the hospital environment, but are rarely recognized. Clinical manifestations of the pathophysiology of the primary disturbance often mask the presence of the secondary one. Therefore, a high degree of clinical suspicion must be maintained if these complex disorders are to be detected correctly and treated appropriately. This review discusses the pathophysiology, clinical manifestations, and laboratory diagnosis of mixed acid-base disorders, and describes a logical approach to their diagnosis.

Additional Key Phrases: anion gap, diabetic ketoacidosis, respiratory and metabolic acidosis, respiratory alkalosis, blood gases

The concept of mixed acid-base disorders, characterized by coexistence of two or more primary acid-base disturbances in the same patient, is not new. Nevertheless, the recognition of mixed disorders remains a challenge to the clinician. Although the pathophysiology of mixed disorders is relatively straightforward, the clinical manifestations often mask the presence of the secondary disturbance. Therefore, a high degree of clinical suspicion must be maintained if these complex disorders are to be detected correctly and treated appropriately. This review discusses the pathophysiology, clinical manifestations, and laboratory diagnosis of mixed acid-base disorders, and describes a logical approach to their diagnosis.

Evaluation of Blood Gases

The Henderson-Hasselbalch equation for the ionization of carbonic acid is:

$$pH = pK' + \log \frac{[HCO_3^-]}{s \cdot P_{CO_2}}$$

where pK' is the negative logarithm of the dissociation constant of carbonic acid, $[HCO_3^-]$ is the concentration of bicarbonate ion, s is the solubility coefficient of CO_2 in plasma, and P_{CO_2} is the partial pressure of CO_2. Because the pH is related to the ratio of $[HCO_3^-]$ to P_{CO_2}, rather than to the absolute concentration of either, the pH can remain normal despite substantial changes in $[HCO_3^-]$ and P_{CO_2}, provided that these changes occur in the same direction and to the same relative degree. For example, a patient with a low pH (acidemia) and a high P_{CO_2} (respiratory acidosis) could have a normal pH if his bicarbonate concentration had also increased to a high level (metabolic alkalosis). Similarly, a patient with a high pH (alkalemia) and a low P_{CO_2} (respiratory alkalosis) could have a normal pH if his bicarbonate concentration had also decreased to a low level (metabolic acidosis). Thus, the pH of blood is maintained in the normal range by the kidneys' ability to regulate the concentration of bicarbonate ion in the extracellular fluid, and by the lungs' ability to regulate the P_{CO_2} of the alveolar air.

Methods of Analysis

The measurement of arterial blood pH, P_{CO_2}, and P_{O_2} requires a heparinized arterial blood sample, a pH meter, and a set of blood gas electrodes. The P_{CO_2} and P_{O_2} electrodes are Clark electrodes (1), and the pH electrode is a glass electrode. Because the pH and P_{CO_2} of blood are highly dependent on temperature, the electrodes must be maintained at 37°C. Most blood gas instruments have a thermostatically controlled water bath for this purpose.

The bicarbonate concentration of blood is usually calculated from the Henderson-Hasselbalch equation, rearranged as follows:

$$[HCO_3^-] = s \cdot P_{CO_2} \cdot 10^{(pH - pK')}$$

The pK' of carbonic acid is 6.1 at 37°C. The solubility coefficient of CO_2 in plasma is 0.03 mM/liter/mm Hg.

Because the pK' and s are constants, only the pH and P_{CO_2} of the blood sample must be measured to calculate the bicarbonate concentration.

Although this method is widely used, it is subject to considerable error. Because the pH and P_{CO_2} are measured directly, the errors in these measurements are multiplied by the antilogarithm of the difference between the pH and pK'. Thus, small errors in the measurement of pH and P_{CO_2} can result in large errors in the calculated bicarbonate concentration. Furthermore, the pK' and s are not constants, but vary with the pH, temperature, and ionic strength of the blood. Therefore, the bicarbonate concentration should be measured directly whenever possible.

Direct measurement of bicarbonate is usually performed by titrating a sample of plasma with a strong acid to the CO_2 equivalence point (2). The CO_2 equivalence point is the pH at which the CO_2 content of the sample is equal to the CO_2 content of a bicarbonate standard solution equilibrated with a gas mixture containing 5% CO_2. The CO_2 content of the sample is then equal to the CO_2 content of the standard, which is calculated from the pH and P_{CO_2} of the gas mixture. Because the CO_2 content of the standard is almost entirely bicarbonate, the bicarbonate concentration of the sample is also known. Although this method is more accurate than the calculated bicarbonate concentration, it is also more time-consuming and requires more sophisticated equipment.

The simplest approach to acid-base analysis of blood gas values is to apply the pH boundaries of alkalemia, 7.35–7.45, and acidemia, <7.35 or >7.45, and the P_{CO_2} boundaries of alkalosis, <35 mm Hg, and acidosis, >45 mm Hg, and then categorize the acid-base disorder as respiratory or metabolic. For example, a patient with a low pH (acidemia) and a high P_{CO_2} (respiratory acidosis) could have a normal pH if his bicarbonate concentration had also increased to a high level (metabolic alkalosis). Similarly, a patient with a high pH (alkalemia) and a low P_{CO_2} (respiratory alkalosis) could have a normal pH if his bicarbonate concentration had also decreased to a low level (metabolic acidosis). Thus, the pH of blood is maintained in the normal range by the kidneys' ability to regulate the concentration of bicarbonate ion in the extracellular fluid, and by the lungs' ability to regulate the P_{CO_2} of the alveolar air.

Important Note: These estimates are based on average size and use of each appliance. Operating costs may vary considerably due to the type, size, frequency and duration of use, as well as differences in family living habits. While most appliances last a long time, older appliances often use far more energy than new, energy-efficient models.

FCC RECORDS INDICATE THAT YOUR AMATEUR OPERATOR LICENSE IS DUE TO EXPIRE VERY SOON. THIS IS THE ONLY LICENSE RENEWAL NOTIFICATION YOU WILL RECEIVE FROM US. TO AVOID A LAPSE IN OPERATING AUTHORITY YOU SHOULD RENEW NOW!

The FCC no longer sends out license expiration notices or reminders to licensees The FCC authorizes the Volunteer Examiner Coordinators (VECs) to handle and process license renewals and modifications in addition to applications involving examinations Applications for renewal may be returned to the VEC who in turn files them electronically directly into the FCC s Universal Licensing System. You may have forgotten or lost track of your renewal date The nominal cost for us to process a routine renewal of your amateur license is only $7.00 payable by personal check, money order, or credit card This fee is to reimburse the W5YI VEC for administrative costs in providing this renewal notification service by mail and electronically filing your application to the FCC

Renewing or changing your address using our service is quick and simple just check that the information on your address label is correct, sign and date the white Form 605 R renewal card and return it in the enclosed envelope That s all you need to do to quickly get your renewal application on the way to us for processing to the FCC It is not necessary to send a copy of your existing license or any other forms or fill out any other documents unless your address has changed and we make that process just as quick and easy These enclosed renewal application cards/forms cannot be returned to the FCC, as they will not accept these paper application forms You can however file an electronic renewal application direct with the FCC for free in the FCC ULS if you know your FRN and CORES password The FCC online filing system can be complicated to first time users But our processing service is much faster and easier we do all the work for you!

Complete information on how to file your license renewal is on the back of this letter Simply, if your address is not correct on the white renewal card you will need to complete the ivory NCVEC Form 605 to provide your new address to the FCC You do not need to fill out the ivory 605 Form if all information on the white card 605-R is correct License renewals may only be filed within 90 days of the expiration date shown on the license. If your renewal application is received before your current license expires, you may continue to operate under your current amateur privileges until your application is acted upon. However, your privileges to operate are suspended if you fail to renew by the expiration date. The FCC allows a 2-year grace period in which you may renew your license However, after the 2 year grace period expires, your license will be cancelled by the FCC and you are required to retake and pass a Technician Class examination to be licensed again, resulting in a new call sign being issued. New FCC rules allow you to regain your prior license privileges, from prior element credit. You may be able to obtain your previous call sign through the vanity program. Contact us at 800-669-9594 for details on that filing process.

The FCC Rules and Regulations of the Amateur Service have greatly changed during the past 10 years – especially in the area of license element credit for expired licenses, and RF Safety exposure. Do you have a copy of the newest FCC Part 97 Rules and Regulations? If not you may order one at the same time you renew your license. Just check the box on the renewal card, and add an additional $3.95 for the rule book - $10.95 total.

TRACFONE NET10 Straight Talk

Estimado cliente Tracfone/Net10/Straight Talk:

Con esta tarjeta usted podrá reemplazar su tarjeta SIM de reemplazo. Para reemplazar su tarjeta SIM correctamente, por favor asegúrese de seguir cuidadosamente las instrucciones que aparecen a continuación:

1. Retire la cubierta posterior y la batería de su teléfono.
2. Retire la tarjeta SIM deslizándola de su teléfono y descártela. (La forma de retirar la tarjeta SIM varía de un modelo de teléfono a otro. Por favor, observe la ilustración en esta página).
3. Retire la nueva tarjeta SIM (su reemplazo) de la tarjeta de plástico que viene incluida en este sobre.
4. Coloque la tarjeta SIM nueva en el teléfono con el área dorada hacia abajo y la esquina con el corte angular [illegible] al teléfono. (La forma de colocar la tarjeta SIM varía de un pequeño teléfono a otro. Por favor, observe la ilustración en esta página).
5. Inserte la batería y coloque la cubierta posterior.
6. Encienda su teléfono. Es posible que el idioma se establezca luego en inglés o español. Para cambiarlo a inglés, siga las instrucciones que aparecen al final de esta carta o consulte la Guía del Usuario que debe estar en el paquete donde recibió su teléfono.
7. Usted está listo para Activar/Reactivar su teléfono. Por favor visite:
   Clientes TracFone: www.tracfone.com o llame al 1-800-867-7183
   Clientes NET10: www.net10.com o llame al 1-877-836-2368
   Clientes Straight Talk: www.straighttalk.com o llame al 1-877-430-2355

NOTA: Será necesario que su teléfono esté encendido y que usted tenga disponible el número de su tarjeta SIM y el número de serie de su teléfono.

Si usted ha removido incorrectamente su tarjeta SIM, al prender el teléfono, en su pantalla aparecerá el mensaje "Insert SIM". Si usted recibe este mensaje, simplemente retire la tarjeta SIM y colóquela nuevamente siguiendo las instrucciones anteriores.

Mostramos las tarjetas SIM fuera del alcance de niños pequeños.

topDENTISTS™ More than just a dentist – the *right* dentist

December 2, 2017

Dr. Kimberley D. Sauer
Dixon Pediatric Dental Group
5627 Oberlin Drive, Suite 100
San Diego CA 92121

Dear Dr. Sauer:

We are pleased to inform you that you have been selected by a vote of your peers to be included in the 2018 database of *topDentists*™. The listings for the San Diego area appear online at www.usatopdentists.com and will appear in the April issue of ***San Diego Magazine***.

Because *topDentists* is based on an exhaustive peer-review survey in which dentists and specialists throughout San Diego county cast "votes" on the abilities of other dentists and specialists, and because listings cannot be purchased (and no payment is required to be listed) inclusion in *topDentists* is considered a singular honor.

With over sixty years in combined experience compiling peer review professional referral guides, we have been able to use our experience along with the input of dentists across the United States to create a methodology that has been refined and improved over previous superlative guides.

Congratulations on being honored by your peers.

Sincerely,

Mark Barkley

LiftMaster.

3-BUTTON REMOTE CONTROLS
MODELS 850MAX, 893MAX AND 895MAX

Can be used as a replacement remote control for 80 Series, 970 Series, and 370 Series LiftMaster remote controls.

Compatible with 315 MHz or 390 MHz garage door openers manufactured after January 1, 1993. Make sure the garage door opener has a working light bulb because it is a programming indicator.

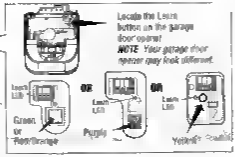
For use with gate operators, commercial door operators, or other products that are 315 MHz or 390 MHz and have a Learn button. Refer to your product manual for the location of the Learn button.

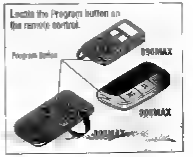
⚠ WARNING

To prevent possible SERIOUS INJURY or DEATH from a moving gate or garage door:

- ALWAYS keep remote controls out of reach of children. NEVER permit children to operate or play with remote controls.
- Activate gate or door ONLY when it can be seen clearly, is properly adjusted and there are no obstructions to door travel.
- ALWAYS keep gate or garage door in sight until completely closed. NEVER permit anyone to cross path of moving gate or door.

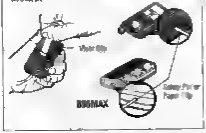
PREPARE





PROGRAMMING THE REMOTE CONTROL

1 Press and hold the program button (the remote control until the LED on the front of the remote control turns on.



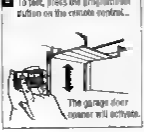
2 Press and release the remote control button you wish to use the number of times that corresponds with the garage door opener type.

3 To exit programming mode, press any remote control button **except** the button that was just programmed.

4 Press and release the Learn button on the garage door opener.

5 Press the remote control button programmed in step 2 until the garage door opener lights flash or two clicks are heard.

6 To test, press the programmed button on the remote control.



7 Install the visor clip (not applicable for Model 850MAX)

Servicing First & Second Check Valves - 2½" - 3"

1. Remove the relief valve assembly as outlined on page 6.
2. Remove the retainer from the body bore. The check valve modules can now be removed from the valve by hand or with a screwdriver. **Note:** The seats and springs of the First and second check modules are not interchangeable. The heavier spring and smaller diameter seat belong with the first check module.
3. The check seats are attached to the cage with a bayonet type locking arrangement. Holding the cage in one hand, push the seat inward and rotate counterclockwise against the cage. The seat, spring, cage, spring and disc assembly are now individual components.
4. The disc assembly may now be retained and reassembled or discarded as its condition may be discarded and replaced with a new assembly from the repair kit. O rings should be cleaned or replaced as necessary and lightly greased with the FDA approved silicon grease. For more information refer to repair parts price list PL RF BPD
5. Reassemble the check valve modules. Check modules are installed in the valve body with the seat facing the valve inlet. The modules must be securely in place before the retainer can be replaced. Replace relief valve assembly.

NOTE No special tools required to service Series 009 2½" - 3"

概述

术语

- 期权：期权是一种权利。但不是义务，指是一种能在未来某特定时间或者某时间之内以特定价格买入或卖出一定数量的标的产品，如证券、商品或金融工具的权利

- 看涨期权：看涨期权是购买标的资产的权利，不是义务，也可被看做具有保险的买入远期合约。

  注：每份看涨期权可用最终期权定价来交易。以$100 买入 IBM 股票的看涨期权，等价于以$1 卖出的 1/ 100 股 IBM 股票的看跌期权。买入德国马克对美元的权利等于卖出美元对德国马克的机利。

- 看跌期权：看跌期权是卖出标的资产的权利，不是义务。也可被看作具有保险的卖出远期合约。

  注：每份看跌期权也可用看跌期权定价来交易。以$100 卖出 IBM 股票的看跌期权，等价于以$1 买入的 1/ 100 股 IBM 股票的看涨期权。卖出德国马克对美元的权利等于买入美元对德国马克的权利

- 欧式期权：欧式期权只可在期权到期日当天才能执行的期权
- 美式期权：美式期权是指可以在到期前任何一天被执行的期权

- 标的资产：任何一个期权合约基于一个标的金融工具，这个标的金融工具可作为一种工具在现货市场交易，也可以自身为一个衍生品工具，例如：远期、期货或是另一个期权

  标的资产在现货市场交易的期权被称作现货期权，远期和期货的期权被称作远期期权和期货期权
  标的即期工具可以是实物产品，也可以是虚拟金融工具，例如：指数

- 执行价格或敲定价格：执行价格是指期权转化为标的金融工具的价格，执行价格在期权交易开始时标就被确定。

  对于一些奇异期权，执行价格可能是可变的。最后价格可以取决于期权生命周期的某一点，也可以是到期日

- 到期时间：期权具有有限的时间期限，如果期权没有在到期日执行，它将不再存在，期权的到期时间可以是半到几个小时，大到 20 多年
- 价内期权：如果标的证券的价格超过执行价格，看涨期权就是价内期权，如果执行价格超过标的证券价格，看跌期权是价内期权

MODEL 703-705-707 PUMPS
TWO STAGE

INSTALLATION AND STARTING

INSPECTION. Check for possible damage in transit. All basic pumps are shipped with flywheel unmounted. Do not force flywheel on crankshaft. Use wedge in slot provided for easy assembly. Belt alignment and tensions must be checked carefully.

MOUNTING. Install in a clean, dry, well ventilated location away from any source of heat such as a boiler or boiler flue. If a unit is to be fastened to a foundation, all four feet must be firmly supported and shimmed to remove all stress from unit. Pump flywheel should be loosened towards wall with minimum clearance of 1/8" to allow for circulation of air and additional clearance if required for servicing.

LUBRICATION. Fill crankcase to level mark on oil gauge with an industrial compressor oil grade ISO 150 or ASTM 200.

Ambient Temp.	Viscosity at 100° SSU	ISO Viscosity Cst.	SAE No.
0° 40°	250-350	46-68	20
40° 80°	450-550	100	20
80° 120°	650-750	150	40
Under 0° Over 120°	Consult Factory		

CAUTION Turn power off before servicing

MAINTENANCE, OPERATION AND CARE

PRESSURE AND SPEED. Never operate pump at pressures or speeds in excess of those recommended by factory. Every compressor assembly must have a safety valve installed and should be set at either the maximum tank working pressure or 25 P.S.I over the desired pressure of the unit, whichever is less.

OPERATING GUIDELINES: Maximum Operating Speed, 702 @ 2187 515 RPM. 705 @ 5 HP 945 RPM; 707 @ 10 HP 945 RPM. Minimum operating speed all pumps 400 RPM. Intermittent Operation, maximum 70%. Consult dealer for applications outside these guidelines.

DAILY. Check for unusual noise, failure to compress, overheating, oil leaks, and vibration. Correct before serious damage develops. Drain all condensate from receiver and traps.

***WEEKLY.** Examine intake Filter elements and if dirty, remove and clean or replace. Check oil level and add if necessary. Be sure oil over level mark on sight glass. Keep compressor clean for efficient operation and appearance.

***MONTHLY.** Check and tighten all bolts and nuts as required (refer to torque chart). Check air connections for air leaks - tighten as required. Check belt tension. NOTE: This is a standard maintenance procedure which "warranty" does not cover.

QUARTERLY. Inspect valves, clean if necessary. NOTE: This is a standard maintenance procedure which "warranty" does not cover.

CHANGE OIL REGULARLY

Minimum – once every three months.

702 = 4 Pints

705 = 6 Pints

707 = 8 Pints

RECOMMENDED TORQUE READINGS

	Foot-Pounds
7/16 Head bolts	50-55
Valve retainer	40-50
5/16 Rod bolts	30
3/8 Crankcase bolts	30-40
5/16 Side cover bolts	30-40
5/16 Front and rear cover bolts	30-40
5/16 Manifold bolts	30-40
5/8 Flywheel bolts	85-75
5/16 Intercooler bolts	30-40

MAINTENANCE – TROUBLE SHOOTING – REPAIRS

SLOW PUMPING OR INSUFFICIENT PRESSURE

1. Clogged filter element – clean or replace
2. Leaks in air lines – retighten or replace.
3. Insufficient air capacity – add compressor capacity – consult dealer.
4. Head valves – clean or replace (see Instruction 5).
5. Slipping belts – adjust or replace

EXCESSIVE OIL CONSUMPTION

1. Too much oil – drain out excess to level mark on sight glass
2. Worn rings – replace rings
3. Clogged air intake filters – clean or replace
4. Improper oil – consult oil chart 1
5. Oil leaks – check and tighten all bolts and nuts. Replace gaskets if necessary. See "monthly" under "operation and care."
6. Duty cycle over 70%.

OVERHEATING

1. Pump running backwards – reverse rotation, shunt on CCW facing flywheel.
2. Inadequate ventilation – pipe intakes to outside and install filters to protect against weather and foreign objects.
3. High ambient – same as #2.
4. Restricted air intakes – clean or replace
5. Loose or restricted valves – retighten, clean or reinstall.
6. Incorrect installation – allow 18" minimum between wall and flywheel
7. Insufficient air capacity or excessive duty cycle.

Local help for enrolling in new Health Insurance Market Place

The news has been flooded with stories of difficulties accessing the new Health Insurance Market Place, part of the Affordable Care Act, but NAMI Juneau will host an event Monday, Nov. 4, to help locals navigate the new system.

Monday evening, 5-6:30 p.m., at Aldersgate Methodist Church, join a panel of experts from Enroll Alaska, United Way of Anchorage and the Alaska Native Tribal Health Consortium to learn about the new healthcare options and the enrollment process. The free program is hosted by NAMI Juneau and sponsored by Southeast Alaska Independent Living, Juneau Alliance for Mental Health, Juneau Youth Services, the University of Alaska Southeast, the Mental Health Trust and the Jason Foundation.

For more information on the event, please contact NAMI Executive Director Doy Gartenberg at 463-4251.

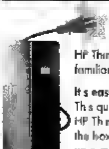
GET YOUR NEW THIN CLIENT SYSTEM UP AND RUNNING



Congratulations—welcome to enhanced security, reduced cost, less risk and a system that's a whole lot easier to manage.

HP ThinPro thin clients help improve productivity with quick deployment of simple familiar and more reliable computing experiences.

It's easy to get started.

This quickstart guide illustrates some of the most common tasks of setting up an HP ThinPro thin client. It's designed to help you get up and running right out of the box. However, if you have questions, need more information or want to set up a more unique configuration, please refer to the HP ThinPro Administrator Guide at **www.hp.com/support/manuals/thinclients**. Select your thin client and its respective guide under *General Reference*.

LOGGING ON AND GETTING STARTED

The HP ThinPro interface appears when you first turn on the thin client and defaults to User Mode.

User Mode

- Allows restricted rights to subset of access connection creation and control panel applications. Allows restricted rights to subset of access connection creation and control panel applications.

Administrator Mode

- Allows full access to control panel applets, configuration of HP ThinState, Centralized Deployment, FTP images, etc.
- Defines which connections and connection types are visible when in User Mode and limits users on deleting connections or creating new ones.

Note: You must log in with administrator permissions to access all components of the HP ThinPro user interface. The default password for Administrator Mode is: **root**

To switch between User and Administrator mode:

1. Click the HP logo in the bottom left of the screen

or

2. Position your cursor in the screen background and right-click. Then, select **Administrator/User Mode Switch**.
3. Enter your password.

Quick tip

To determine if you are in User or Administrator mode:

A blue banner at the top of the console window designates User Mode.

A red banner at the top of the console window designates Administrator Mode.

fact, I need to make an effort to remember it at all. So, while the World Wide Web provides a retrieval mechanism to complement the existing storage mechanism, it leaves a lot to be desired, particularly for human beings.

Finally, we move to "perceptualized" Internetworks, where the data has been sensualized, that is, rendered sensually. If something is represented sensually, it is possible to make sense of it. VRML is an attempt (how successful, only time and effort will tell) to place humans at the center of the Internet, ordering its universe to our whims. In order to do that, the most important single element is a standard that defines the particularities of perception. Virtual Reality Modeling Language is that standard, designed to be a *universal description language for multiparticipant simulations*.

These three phases, storage, retrieval, and perceptualization are analogous to the human process of consciousness, as expressed in terms of semantics and cognitive science. Events occur and are recorded (memory), references are drawn from memory (associations), and from sets of related events, maps of the universe are created (cognitive perception). What is important to remember is that the map is not the territory, and we should avoid becoming trapped in any single representation or world view. Although we need to *design to avoid disorientation*, we should always push the envelope in the kinds of experience we can bring into manifestation!

This document is the living proof of the success of a process that was committed to being open and flexible, responsive to the needs of a growing Web community. Rather than re-invent the wheel, we have adapted an existing specification (Open Inventor) as the basis from which our own work can grow, saving years of design work and perhaps many mistakes. Now our real work can begin: that of rendering our noospheric space.

History

VRML was conceived in the spring of 1994 at the first annual World Wide Web Conference in Geneva, Switzerland. Tim Berners-Lee and Dave Raggett organized a Birds-of-a-Feather (BOF) session to discuss Virtual Reality interfaces to the World Wide Web. Several BOF attendees described projects already underway to build three dimensional graphical visualization tools which interoperate with the Web. Attendees agreed on the need for these tools to have a common language for specifying 3D scene description and WWW hyperlinks -- an analog of HTML for virtual reality. The term Virtual Reality Markup Language (VRML) was coined, and the group resolved to begin specification work after the conference. The word 'Markup' was later changed to 'Modeling' to reflect the graphical nature of VRML.

6. CARRIER agrees to hold BROKER harmless from and indemnify and defend BROKER and its customers for any liability resulting from loss or damage to any freight or for the late delivery, misdelivery or failed delivery of our freight transported by CARRIER pursuant to this agreement including all costs to defend claims. CARRIER also agrees to hold harmless from and indemnify and defend BROKER and its customers for any liability resulting from personal injury or property damage which may occur during the operations of CARRIER pursuant to the agreement including all costs to defend claims

7. CARRIER shall be liable for the full actual loss resulting from loss, damage injury or delay. In the event of loss, damage, overage or shortage, CARRIER agrees to notify BROKER immediately. CARRIER shall return overages if found to be negligent in non-reporting such information to the BROKER. Disposition of damaged goods will be determined by the BROKER and BROKER may properly present claims on behalf of its customer unless BROKER'S customer elects to present claims on its own behalf. BROKER shall be entitled to recover all damages for freight loss, damage or delay created by CARRIER without limitation at the discretion of BROKER

8. CARRIER shall be liable to the BROKER for loss or damage to any property transported under this AGREEMENT. Such liability will begin at the time cargo is loaded upon CARRIER'S equipment at point of origin and continue until said cargo is delivered to the designated consignee at the destination or any immediate stop off party. The liability shall be full value of the item, which shall be understood to mean the replacement cost of the lost or damaged item(s)

9. All claims for loss and damage shall be handled and processed in accordance with the regulations of the I.C.C as published in the Code of Federal Regulations (49 C F R)

10. In the event of delay due to equipment problems, driver or dispatch error or any other CARRIER related circumstances that could jeopardize appointment times being met while the CARRIER is in the carriage of BROKER'S freight CARRIER shall, at its expense, advise BROKER giving an estimate of the anticipated delay in delivery. CARRIER shall promptly take steps to reload the freight in replacement equipment or take any necessary steps to minimize delay at the CARRIER'S sole expense.

11. The CARRIER agrees not to withhold, stop delivery or pilfer, alter or freight covered by the AGREEMENT. In the event CARRIER attempts, then BROKER shall have the right to collect from CARRIER all cost and expenses including attorney's fees

12. The Relationship of the CARRIER to BROKER at all times will be that of an independent contractor. CARRIER as an independent contractor shall be responsible for furnishing all drivers, labor, equipment and supplies needed to perform its transportation obligations to the BROKER. The enclosed production history form has been updated with last year's yields to show the 2005 production. If you have any questions as you look this over, please give us a call. If everything looks ok, you can just file it away.

The policy will automatically renew for the 2006 crop year. We want you to be aware that **any revisions to your crop insurance program such as: coverage changes, adding new land, a change in your share, farming in an additional county, or adding a new crop, need to be done prior to March 15, 2006.** If you have married recently, we will need your spouse's name and social security number.

Please get in touch with me to discuss any changes prior to the March 15th deadline.

Thank You,

Mike Beaird

Parameter Access View

Menu Word Swap

Default Word Swap is MSW-LSW that means if a 32-bit parameter is assigned to menu 18 19 or 20-10, that parameter will take two parameters with the higher parameter holding the upper 16-bits. For example, if vel.cmd is assigned to menu 18.11 it will actually reside in menu's 18.11 and 18.12.

When switched to LSW-MSW the higher parameter will hold the lower 16-bitswhile the lower parameter will hold the higher 16-bits

Menu 18 Menu 20-22 Tabs

The user may select parameters to be interfaced to the following Unidrive SP and Digitax menu's.

18.08-18.10 16-bit Read Only

18.11 18.30 16-bit

18.00-18.10 16-bit, Read only

19.11 19.30 16-bit

20.01-20.20 16-bit

20.21-20.40 32-bit

If a 32-bit parameter is assigned to menu 18, 19, or 20-18, that parameter will take two parameters with the higher parameter holding the upper 16-bits. For example, if vel.cmd is assigned to menu 18.11 it will actually reside in menu's 18.11 and 18.12.

Both 16-bit and 32-bit parameters will take a single parameter in menu 20

The parameters do not have a decimal place. But the complete value is passed. Consider the example where PosnCommand is assigned to menu.20.20 and Position has four decimal places. If PosnCommand is equal to 12.8434 menu.20.20 will equal 128434

For read/write parameters, the value can be changes by either the registry parameter being directly changed or by the menu parameter being changed. If Index.8.Sel is assigned to menu 20.21 and a program changed the value of Index.8.Sel to 12.8008, menu 20.21 will equal 128008. If a user changes menu 20 21 to 136464 Index.8.Sel will then equal 13.6434. If a registry parameter is read only the menu parameter can read the value, but not change it.

The transfer between the registry and menu parameters is asynchronous and assume a the menu priority as a user program

Menu 70 Tab

Menu 70 Setup is used to gain non-mystic access to EZMotion completions in the module. When the user drags an EZMotion parameter from the left to the right PowerTools Pro gives the user the flexibility to assign a drive parameter number to the EZMotion parameter. Using this newly assigned address the user may now access the EZMotion parameter using a PPO 4 word configuration (see the SM-DeviceNet User Guide or SM-Profibus User Guide for more information). DeviceNet explicit messages (see the SM-DeviceNet User Guide), Modbus RTU through the SM Applications module, or Modbus TCP/IP (see the SM-Ethernet User Guide). EZMotion parameters assigned a drive parameter number will NOT be accessible using Modbus RTU from the front of the drive.

See the *Unidrive SP Advanced User Guide* or the *Digitax ST User Guide* for details on the available parameters.

Test fax from Circuit ID

president of industry trends at TrueCar.

Several factors account for the rising prices. Because there are fewer new models on the market than in recent years, automakers need fewer incentives to lure customers into the showrooms. The earthquake in Japan has also caused shortages of some cars and crossover vehicles built there by Toyota, Honda and Nissan, which has driven the prices up on the limited inventory in stock.

Car companies are also commanding better prices for their small cars because of added features like entertainment systems and heated seats. Consumers are increasingly paying more to get upscale options on smaller cars that were once primarily bare-bones purchases.

“On a dollar basis, they’re paying more, but they’re getting a whole lot more car than in the past,” said Mr. Toprak.

The average transaction price for a new vehicle in the United States, including rebates and other incentives, reached $29,867 in April, according to TrueCar.com. That figure represented an increase of $392 over March. But automakers are not necessarily getting greedy, industry analysts said. Some of the increases are going toward covering higher material costs, and the companies are also taking advantage of strong demand.

General Motors, for example, is running short on supply of its Chevrolet Cruze compact car, and the Ford Motor Company is low on inventories of its Focus sedan and Explorer S.U.V. Some of the biggest year-over-year price increases are found on even best-selling models like Chrysler’s Jeep Grand Cherokee and Honda’s Odyssey minivan.

“The pricing is more of a symptom of lack of supply than anything else,” said Jim Farley, Ford’s head of global sales marketing. “But it is affecting the industry’s volumes.”

Ford and Toyota announced across-the-board price increases this year on their 2011 models. Ford said it would raise prices by an average of $177, or 0.4 percent, while Toyota said it would lift prices by about 1.7 percent on many of its Toyota, Lexus and Scion models. G.M. has said it will charge more for many of its vehicles, by an average of $125.

But the increases are only part of the equation. Overall discounts and sales incentives fell to their lowest levels in five years in April, according to the automotive site Edmunds.com.

Incentives averaged about $2,320 per vehicle in April, a $570 reduction from the period a year earlier. Some of the reduction is attributed to sales programs that expired and were not renewed. Japanese carmakers have also pulled back incentives because of the earthquake-related shortages, and the American companies have followed suit.

“Our incentive strategy is based on the competitive environment,” said Mr. Farley. “There’s been a [illegible] surge because stocks have been depleted and we’re launching a lot of new products that don’t require incentives to sell.”

Automakers always try to balance the need for incentives against consumers’ demand. But if companies pull back too far on discounts, some potential shoppers will simply wait until the next deals are announced.

The American automakers are not as reliant on heavy incentives as in years past, mostly because the companies closed dozens of factories to bring their production in better balance with their market shares.

They also have little reason to pile on discounts when their Japanese competitors have cut incentives so drastically.

“Putting incentives on cars you don’t have doesn’t make sense,” said [illegible], president of Rockland Toyota in Blauvelt, N.Y.

Replace Battery Cartridge(RBC) Addendum

This addendum does not apply to Back-UPS Pro 1000/1400 and Smart-UPS VS 1000/1400.

I. Installation

Follow the installation illustration on the accompanying sheet

Note: Small sparks at the battery connectors are normal during connection.

II. Post-Installation

Once installed allow the unit to charge for five hours. If the unit is an XL model, allow it to charge for 24 hours.

Note: The Smart-UPS will charge whether it is on or off, and will charge whether there is a load present or not. In situations where the power quality is poor, it is recommended that the unit be shutdown during this charging period. A Smart-UPS that is powered on may switch to battery operation which would prolong the time needed to fully recharge the battery.

III. Clearing the Replace Battery LED

A. In order for the replace battery LED to be cleared, it is necessary to run a *valid* self test. For a self test to be considered valid, the following conditions must be satisfied:

- battery capacity must be greater than 75% (minimum of four battery bar graph LEDs illuminated) or
- Smart-UPS must have been charging for at least 8 hours from the last low battery condition. (Low battery condition refers to a state when the Smart-UPS battery has fully discharged).

B. Ways to initiate a self test

A self test can be initiated in any one of five ways:

- Start up of the UPS
- Smart-UPS front panel test button
- Powerchute PLUS software
- SmartSlot Accessory
- Automatic timer--every two weeks from turn on (see APC owners manuals for details)

IV. Verifying Operation

A. What happens during a self test?

When a self test is initiated, the unit supports the load while operating on battery for approximately 8-10 seconds. During this period, the Smart-UPS determines the health of the battery.

B. When should the self test be performed?

After the unit has charged for five hours, a self test can be performed.

Rube Goldberg mistakes a lot of broken glass for bath salts and when they pull him out of the tub he mumbles an idea for dodging bill collectors

As Tailor (A) fits customer (B) and calls out measurements college boy (C) mistakes them for football signals and makes a flying tackle at clothing dummy (D) Dummy bumps head against paddle (E) causing it to pull hook (F) and throw bottle (G) on end of folding hat rack (H) which spreads and pushes head of cabbage (I) into net (J) Weight of cabbage pulls cord (K) causing shears (L) to cut string (M) Bag of sand (N) drops on scale (O) and pushes broom (P) against pail of whitewash (Q) which upsets all over you causing you to look like a marble statue and making it impossible for you to be recognized by bill collectors Don't worry about posing as any particular historical statue because bill collectors don't know much about art.

Family Inspirational

After getting an "A" on her sixth grade final exam Mary (Katherine McNamara) is rewarded with a puppy. Experiencing the love of this little puppy and seeing several of her adult friends single and unhappy, Mary believes that placing two people together with the assistance of some loveable puppies will result in a happy relationship. With the help of her Aunt Karen (Dee Wallace) and Cameron Banks (Jeff Fahey), the three of them become self described matchmaking angels. Along the way, Aunt Karen and Cameron not only become accomplices in their scheme but they get "matched" too! As her success ratio continues, Mary utilizes her new matchmaking angels to carry out the biggest and most important plan: to bring her own parents back together again.

Seen through the eyes of a young girl on the verge of womanhood Mary discovers that puppy love is more than just a trip to the animal shelter. This story illustrates how the lives of six people can be changed with a little help from a pre-teen matchmaker and three adorable puppies.

HVAC systems are such an integral part of our everyday life that even temporary shutdowns are unacceptable. Equipment downtime equals loss of profits and uncomfortable working conditions. Air Tech of Central Florida's commercial expertise comes from understanding the needs of building owners, property managers and tenants. Many of our commercial customers use our contingency plans to quickly respond to a catastrophic failure of their equipment. Some of the Commercial/ Industrial Applications we service are:

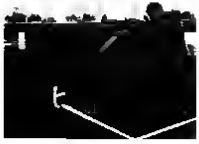
- Single and Multi Story Office Buildings
- Manufacturing Plants
- Retail Centers
- Hotels
- Healthcare Facilities
- Churches

And Many More.

Preventive Maintenance Inspections are the best way to prevent breakdowns

Air Tech of Central Florida's full line of commercial services include customized service and maintenance agreements, tenant build outs, package and split system change outs, and diagnosis and repair of your cooling or heating problem. Our commercial customers include some of the largest names in property management. Call us for a list of references.

We're happy to offer a competitive bid on your commercial project. If you need service you can rest assured our technicians are trained in the most up to date diagnostic procedures. We know the urgency of a computer room's cooling system and how important it is to get it back on line quickly and reliably. Your tenants are our priority too!



We Offer a Complete Line of Air Conditioning and Heating Equipment

Business owners today are faced with many challenges and a considerable amount of their time focused on projects that are necessary to keep their facilities modern. These projects can involve various types of building infrastructure renovations and leasehold improvements. Often the total cost of all the projects combined exceeds the internal capital available to fund them.

Air Tech of Central Florida Inc. offers creative financing solutions to business owners that allow these projects to move forward without depleting existing working capital. We provide pay as you go finance options for replacing that equipment that is often difficult to finance. Eighty percent of the Fortune 100 companies use pay as you go financing. Please call us for more information.

Our service area includes Central Florida Tampa Jacksonville and places in between. Technicians are available after regular business hours seven days a week to respond to emergency calls.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

NOTICE FOR APPLICANTS SUBMITTING FINGERPRINTS WHERE CRIMINAL RECORDS RESULTS WILL BECOME PART OF THE CARE PROVIDER BACKGROUND SCREENING CLEARINGHOUSE

NOTICE OF:

- RELEASE OF CRIMINAL HISTORY RECORD INFORMATION WITH EXEMPTIONS
- ADVERSE
- RETENTION OF FINGERPRINTS,
- PRIVACY POLICY AND
- RIGHT TO CHALLENGE AN INCORRECT CRIMINAL HISTORY RECORD

This notice is to inform you that when you submit a set of fingerprints to the Florida Department of Law Enforcement (FDLE) for the purpose of conducting a search for any Florida and national criminal history records that may pertain to you, the results of that search will be returned to the Agency for Persons with Disabilities. Florida law authorizes FDLE to release to this agency the dissemination of any state and national criminal history record that may pertain to you to the Specified Agency or Agencies from which you are seeking approval to be employed, licensed, work under contract, or to serve as a volunteer pursuant to the National Child Protection Act of 1993 as amended and Section 943.0542 Florida Statutes. "Specified agency" means the Department of Health, the Department of Children and Family Services, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Department of Elder Affairs, the Department of Juvenile Justice, and the Agency for Persons with Disabilities when these agencies are conducting state and national criminal history background screening on persons who provide care for children or persons who are elderly or disabled. The fingerprints submitted will be retained by FDLE and the fingerprints will be the subject of Florida's mass retention program.

Your Social Security Number (SSN) is needed to keep record accurate because other people may have the same name and birth date. Verification of your SSN is imperative for the performance of the fingerprint agencies' duties in distinguishing your identity from that of other persons. Your identification information may be the same as or similar to yours.

Licensing and employing agencies are needed to receive a copy of the state and/or national criminal history information to a person who includes a copy of his or her own record if the identification of the record was based on information of the person's fingerprints. Therefore, if you wish to review your record you may request that the agency that is screening the record provide you with a copy. After you have reviewed the criminal history record, if you believe it is incomplete or inaccurate, you may conduct a personal review as provided in s. 943.056, F.S. and Rule 11C-6.001, F.A.C. if national information is verified to be in error, the FBI should be contacted at 304-625-2600. You can request any national criminal history record that may pertain to you directly from the FBI pursuant to 28 CFR regarding 16.30-16.34. You have the right to obtain a prompt determination as to the validity of your challenge before a final decision is made about your retention as an employee, volunteer, contractor or subcontractor.

Until the criminal history background check is completed, you may be denied unsupervised access to children, the elderly or persons with disabilities.

The FBI's Privacy Statement NOTICE is a separate copy and contains additional information

PRELIMINARY QUESTIONNAIRE FOR JUROR SELECTION

You have been randomly selected under provisions of RCW 2.36 for possible service as a juror in Sumner Municipal Court, Pierce County Washington. The jury source list for Sumner Municipal Court is compiled from a county wide list including registered voters and holders of a Washington State driver's license or identification card.

A person is competent to serve as a juror **unless** that person (1) is less than 18 years of age, (2) is not a citizen of the United States, (3) is not a resident of the county in which he or she is summoned to serve; (4) is not able to communicate in the English language; or (5) has been convicted of a felony and has not had his or her civil rights restored (RCW 2.36.070). All qualified citizens have the opportunity to be considered for jury service and have an obligation to serve as jurors when summoned for that purpose (RCW 2.36.080).

This is a preliminary questionnaire and not a summons to jury service. You may or may not be selected from this qualifying questionnaire. Additional information regarding jury service is on the back of this section.

Windows® Fax and Scan

Create, scan, and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone line to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Llama

The **llama** (/ˈlɑːmə/, Spanish: [ˈʝama] locally [ˈʃama] or [ˈʎama]) (*Lama glama*) is a domesticated South American camelid, widely used as a meat and pack animal by Andean cultures since the Pre-Columbian era.

The height of a full-grown, full-size llama is 1.7 to 1.8 m (5.6 to 5.9 ft) tall at the top of the head, and can weigh between 130 and 200 kg (290 and 440 lb). At birth, a baby llama (called a *cria*) can weigh between 9 and 14 kg (20 and 31 lb). Llamas typically live for 15 to 25 years, with some individuals surviving 30 years or more.[1][2][3][4]

They are very social animals and live well with other llamas as a herd. The wool produced by a llama is very soft and hypoallergenic. Llamas are intelligent and can learn simple tasks after a few repetitions. When using a pack, they can carry about 25 to 30% of their body weight for 8 to 13 km (5–8 miles).[5]

The name *llama* (in the past also spelled "lama" or "glama") was adopted by European settlers from native Peruvians.[6]

Llamas appear to have originated from the central plains of North America about 40 million years ago. They migrated to South America about three million years ago during the Great American Interchange. By the end of the last ice age (10,000–12,000 years ago), camelids were extinct in North America.[6] As of 2007[update] there were over seven million llamas and alpacas in South America, and due to importation from South America in the late 20th century, there are now over 158,000 llamas and 100,000 alpacas in the United States and Canada.[7]

INTRODUCTION TO REVISED APPLICATION (responses to critiques):

We thank the reviewers (R1, R2, and R3) for appreciating the proposed research, their insightful critiques have enabled us to submit a very strong revised application. The revised proposal is submitted by two principal investigators (Alyar Kelly); a change that has strengthened the resubmission and emphasized its innovative and collaborative approaches. Additional preliminary data supporting the revised specific aims are included in the resubmission. Minor changes in the revised proposal are marked *[in]* and major changes are marked *[Ma]* below for brevity and clarity, we have responded to the reviewers' critiques by section

SIGNIFICANCE ***Relevance of mammalian models to Leishmania biology (R1, R2, R3)***: Recent studies reveal significant changes in gene expression between *Leishmania* promastigote and amastigote stages, and between the insect promastigotes and infectious stationary phase metacyclics. Concurrently there are changes at specific AT-rich strand switch regions used for transcription initiation, including histone acetylation and recruitment of transcription machinery similar to the modulatory mechanisms employed by metazoan AT-hook proteins to regulate chromatin structure and gene expression. In addition over-expression of histone H1 that binds AT-rich DNA represses gene expression in mammalian cells and *Leishmania*. Repression is also observed when *Leishmania* H1 is expressed in the mammalian cells. Thus at least one *Leishmania* chromatin binding protein functions equivalently in metazoan cells, indicating that fundamental properties of conserved chromatin associated proteins are preserved between metazoans and *Leishmania*. Therefore it is reasonable to test models for the function of *Leishmania* AT-hook proteins based on observations made in other eukaryotes ***Knock out of LmjF06.0720***: R1 R2 and R3 expressed concerns that it may be impossible to knock out LmjF06.0720. We concur. new experiments presented in the preliminary data and cells that AT-hook proteins are critical to *Leishmania* survival. Therefore specific Aim 1 has been re-written completely and s no longer dependant on a knockout. ***Relatedness of Aims 1 & 2, raised by R3***: The revised applicat on describes how results from Aim 2 may reveal novel properties of LmjF06.0720 using our recent observations on a metazoan AT-hook prote n as precedent (EMBO J 27:3024 2008)

INVESTIGATORS ***Productivity of Principal Investigators***: After joining LSUHSC in 2007 **Dr Kelly** had acquired impressive amounts of preliminary data relevant to the proposed studies that are already submitted for publication. He has presented data at three international conferences this year. His reputation as a parasitologist is indicated by serving as an Associate Editor for PLoS Neglected Tropical Diseases and PLoS ONE **Dr. Alyar's** research was severely impacted by Hurricane Katrina due to the loss of critical biological materials. These reagents were reconstructed from 2005-2006 since then Dr Alyar's group has published five manuscripts including three on AT-hook proteins in EMBO J J Virology and PLoS Pathogens, and one on itereon plasmids in Virology J. An additional manuscript is currently in press and two others are submitted. Dr Alyar's knowledge of trypanosomatid nuclear biology acquired over the last year is reflected in the revised proposal. *To mitigate the effect of natural disasters, now both investigators bank reagents at other institutions*

INNOVATION ***R3's concerns that Aim 1 mirrors approaches used for other AT-hook proteins***: With respect we emphasize that using robust established approaches to investigate unexplored areas of *Leishmania* biology in Aim 1 should engender confidence in our ability to successfully complete the proposed aims. Further these approaches continue to reveal novel functions of metazoan AT hook proteins such as a recently described role in cell cycle controlled DNA replication (EMBO J 27:3024 2008) Therefore key differences in the biology of AT-hook proteins between *Leishmania* and mammalian cells revealed by our studies cannot be ascribed merely to differences in methodologies *permitting them to be exploited confidently as novel therapeutic targets*. Finally an innovative peptidomimetic is used to study LmjF06.0720 in Aim 1c

APPROACH **1)** R1 R2- R3 have raised ***concerns about knocking out*** LmjF06.0720 that are addressed above **2)** ***Experimental caveats and multiple alternative approaches*** are described alongside each sub-aim of the revised proposal **3)** Concerns of R1 & R3 about ***relevance of AT-hook function in metazoans to Leishmania*** are addressed above under "Significance" and n the revised proposal s Background section

ENVIRONMENT: R3 is concerned about the ***intellectual environment for Dr. Kelly at LSUHSC***. Dr Kelly interacts extensively with other parasitologists at Tulane and has joint lab meetings with LSUHSC investigators studying the pathogenic eukaryotes *Candida, Cryptococcus, and T cruzi*. Drs Alyar & Kelly interact daily with joint group meetings every fortnight. They meet regularly with other molecular biologists at LSUHSC and Tulane. Recent publications by Dr Alyar in highly-cited journals should further allay concerns that the intellectual environment at LSUHSC is not conducive to productive research of high quality

BIOHAZARDS: As requested by R2 & R3 the revised proposal describes biohazards and their safe handling

RESOURCE SHARING PLAN: The inappropriate omission of a resource sharing plan noted by R2 & R3 is rectified n the revised proposal

DESIGNATION OF GUARDIANS AND DURABLE POWER OF ATTORNEY

Whereas, Todd & Melissa Puchalla of [redacted] are the parents and guardians of the following child.

Quinn Jay Puchalla
D.O.B.
[redacted]

We designate Calvin & Nicole Eason of 16572 E. 1200 North Rd, Westville, IL 61883 to act as guardian of the minor child stated above starting October 3,2008.

Should Calvin & Nicole Eason be unable or unwilling to serve, we nominate we again act as guardian of the minor child in the place of Calvin & Nicole Eason.

The designated guardian shall have the following authority

a) residential custody of the minor child.

b) to approve medical treatment of any kind or type or to disapprove the same within the bounds of the law

c) to designate schooling for this minor child, and access to any and all of his educational records

d) to generally act as loco parentis.

In the event that I am the custodian of any property for the minor child under the Uniform Transfer to Minor's act, or the Uniform Gifts to Minors Act or similar statute, I designate the guardian to act as custodian for all such custodial property

In the event that formal legal proceedings are commenced to establish a guardian for the child, it is my desire that the guardians mentioned herein have priority in appointment.

The failure to list an individual as a guardian or successor guardian is intentional.

Dated 10/2/08

Todd Puchalla
Principal

STATE OF Wisconsin
COUNTY OF Sheboygan

Before me, the undersigned authority personally appeared the above signatory (signatories) who acknowledged to me the execution of that durable power of attorney.
